

Sponge'n Bag™ | Sample Collection

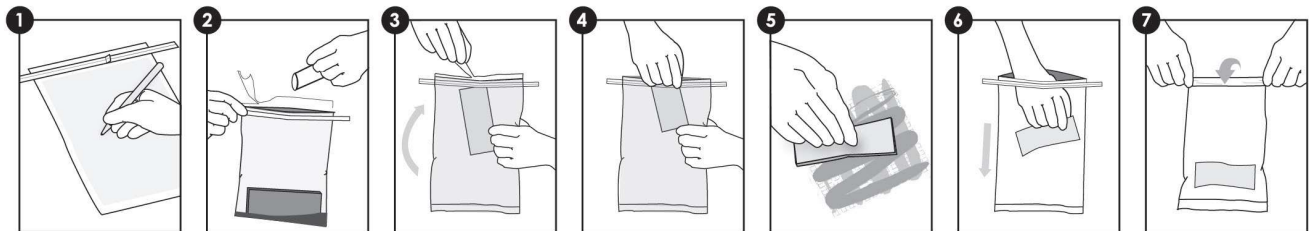

Hygiena™ Sponge'n Bags are biocide-free cellulose sponges supplied in a sterile, tie-off bag. The sponge provides a simple and convenient device for collecting environmental samples from large surface areas. Sponges may be ordered pre-moistened with a variety of different diluents.

Benefits:

- 1.5" x 3" biocide-free cellulose sponge
- Sterilized by gamma irradiation
- Pre-moistened with a variety of diluents
- Easy-to-open tie-off bag
- Large write-on area for easy sample identification
- 12 - 18-month shelf life for hydrated sponges
- Attached sterile gloves optional

Sponge'n Bag Procedure
