

## SpotCheck Plus™ | Food Safety Residue

SpotCheck Plus detects the presence of glucose and lactose on a surface as a rapid indicator of surface hygiene. Simply swab a surface, release the reagent, and if any residue containing glucose and/or lactose is present, the reagent will turn green. The more contamination present, the quicker the color change and darker the color. SpotCheck Plus instantly validates the hygiene of a surface, allowing immediate corrective action to be taken if necessary. If it turns green, it isn't clean!

### Benefits:

- All-in-one device
- Easy-to-interpret color results
- No instrumentation necessary
- Results in 60 seconds
- Pre-moistened swab for reliable collection, recovery, and detection
- 100% recyclable
- 18 month shelf life at refrigerated temperatures (2-8°C)
- 4 week shelf life at room temperatures (21-25°C)

### Sensitivity:

- Detects down to 2.5  $\mu$ moles D-glucose or 5.0  $\mu$ moles lactose in 60 seconds
- Disregard any color change after 2 minutes

### Color Results:

Related Products:

AllerSnap

AllerSnap is a colorimetric allergen prevention test for broad range allergen screening in 15-30 minutes. AllerSnap detects down to 3 µg protein.

ProClean

ProClean is a quick and easy-to-use device for monitoring the cleanliness of surfaces and safeguarding product quality. ProClean detects protein residues left on a surface after cleaning, giving results in 1-10 minutes without any required instrumentation.

EnSURE

EnSURE is a high-sensitivity luminometer that measures multiple quality tests such as ATP, TVC, Coliform, E. coli and more all on one system. The EnSURE monitoring system includes SureTrend data tracking software.
