

Stick Sponge™ | Sample Collection

Hygiena™ Stick Sponges are biocide-free cellulose sponges attached to a plastic handle and supplied in a sterile, tie-off bag. The easy-to-release stick makes it easier to reach into drains, pipes, and around equipment.

Benefits:

- For surface sampling and hard to reach areas
- 1.5" x 3" biocide-free cellulose sponge
- Sterilized by gamma irradiation
- Pre-moistened with a variety of diluents
- Sample collection without directly touching the sponge
- Easy-to-open tie-off bag
- Large write-on area for easy sample identification
- 12 - 18-month shelf life for hydrated sponges
- Attached sterile gloves optional

Stick Sponge Procedure
