

## Verify Your Aseptic Technique!

Hardy Diagnostics offers all the products you need to easily assess the risk of microbial contamination of your CSPs (Compounded Sterile Preparations) according to USP Chapter <797>.

### Features and Benefits:

- ✓ Quality culture media tested for performance, pH and sterility, manufactured in a GMP licensed and ISO certified facility.
- ✓ Kits are designed to help you comply with USP <797> guidelines for aseptic proficiency testing.
- ✓ Kits are available for low, medium, and high complexity procedures.
- ✓ Now packaged in fully recyclable, dust free thermoform plastic packaging and placed in clean barrier zip-bags.

Now in our **NEW** fully recyclable thermoform packaging!
