

HOLSTERS

CONCEALMENT

A new Species of Boltaron holsters. A minimalist design offers a smaller package versus other IWB holsters. The enhanced material selection and design integration brings Safariland quality materials into this new Species of IWB holsters. Dual functionality and tension adjustment allows users to personalize the holster fit, feel, and draw.

SLIM FIT

SPECIES (INSIDE THE WAISTBAND) IWB MODEL

FEATURES_

- SafariLaminate™ thermoformed construction for superior durability and longevity.
- Suede lined for improved firearm fit while protecting handgun's finish.
- Minimalist design reduces bulk in key areas for ideal IWB (inside-the-waistband) appendix style carry.
- Integrated passive trigger guard retention allows for secure feel during draw and reholstering.
- Adjustable tension device allows for tailored firearm tension and fit in holster.
- Fully cantable and vertically adjustable mounting clip for wear comfort.
- Fits standard 1.5" (38 mm) belt widths.
- Firearm model specific design for ideal fit.
