

HOLSTERS

CONCEALMENT

Combining the concealable, accessible design of an open-top paddle holster with the security of ALS®, the Safariland® Model 6378 Holster is made for the rigors of daily use. ALS® locks the firearm securely in place when holstered, but still allows a natural draw with a swipe of the thumb release. SafariLaminate™ construction makes the holster strong on the outside, while the interior suede lining protects your firearm's front sight and finish.
