

TITAN

In Advanced Webless System with VELCRO® Brand Hook and Loop Closure System

PROTECH®

The Safariland® PROTECH® Titan™ Assault Vest is a versatile entry-team platform designed with the ability to add protection with a host of ballistic accessories. Outfitted in Advanced Webless System load-bearing material, the Titan Assault in AWS features an approximate 30% weight reduction compared to traditional modular webbing, while increasing material strength and durability. Durable VELCRO® Brand hook and loop secures the carrier onto the body while allowing for individual adjustability and fit.

Shown In Tan with ballistic yoke and structured upper arms

Back
