

CHAIR LEVELING GUIDE

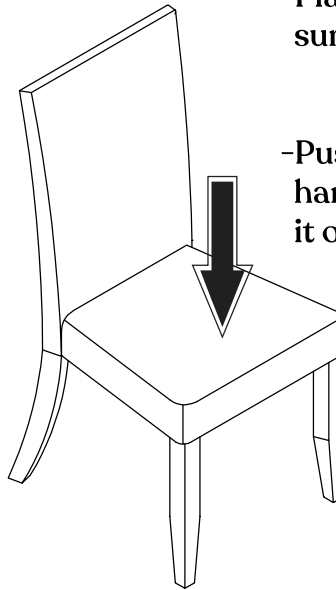

Step 1

-Loosely attach all bolts making sure they are connected.

-This will allow for movement during the leveling process.

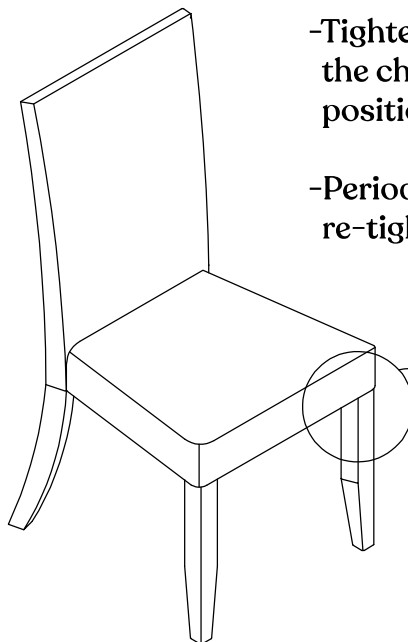

Step 2

-Place chair upright on a level surface.

-Push down on the seat with both hands or sit on the chair to level it out.

Step 3

-Tighten the bolts while keeping the chair in the upright level position.

-Periodically check bolts to see if re-tightening is needed
