RGB LED LIGHT STRING

INDOOR + OUTDOOR

Twinkly Strings 600 smart RGB LEDs, 157.5 feet, Green Wire, Indoor/Outdoor Lighting Decoration

DESCRIPTION

Light and color take the stage with Twinkly Strings for the most dynamic lighting displays. The exclusive Twinkly app uses your smartphone camera to map LEDs into screen-like displays. Play and customize presets or create your own from a palette of over 16M colors.

Group with any other Twinkly devices for seamless synchronization, connect to your smart home for hands-free voice control, and pair with Twinkly Music to watch lights dance to sound.

FEATURES

Create customizable, indoor and outdoor lighting displays with extraordinary brightness and color vibrancy for any occasion.

Instantly configurable via Bluetooth® and Wi-Fi, use the Twinkly App to map lights with your smartphone camera. No matter how you position Strings, the app will locate and position each individual LED virtually on your screen.

Play and customize preset effects and animations or create your own from a palette of over 16 million colors. You can even draw effects from scratch using the FX Wizard.

Seamlessly group with other indoor and outdoor Twinkly lights for larger installations that act as a single display or sync together to play the same animations.

Twinkly smart lights are compatible with Amazon Alexa and Google Assistant for hands-free voice control.

Use with Twinkly Music and watch lights dance in real time to your favorite songs.

HIGHLIGHTS

• Customizable smart string lights

• Exclusive mappable LEDs give you complete control of your lights no matter how you hang them

• App-controlled for limitless creativity and customization

• Create screen-like displays with patented Twinkly technology

• Map multiple Twinkly lights together for synchronized displays

• Bluetooth® and Wi-Fi connectivity

• Over 16 million colors with extraordinary vibrancy

• Use with Twinkly Music and watch lights dance to your favorite songs

• Indoor and outdoor use
