65" Class

55" Class

TCL's 6-Series combines stunning 4K HDR picture performance and the award-winning Roku TV smart platform in a bold, brushed metal design for a superior TV experience. Dolby Vision delivers greater brightness and contrast, as well as a fuller palette of rich colors. TCL's Contrast Control Zone technology individually optimizes the image across up to 120 zones to yield striking contrast between light and dark areas. The 6-Series models' iPQ Engine™ provides precise color replication while HDR Pro Gamma significantly improves HDR performance in any setting.

The 6-Series also features Wide Color with NBP Photon technology for even more realistic colors and performance closer to the limits of human vision. Powerful picture performance is complemented by the Roku OS with the most streaming content available and seamless access your cable box, Blu-ray player, gaming console, and other devices without flipping through inputs or complicated menus. An enhanced remote lets you use your voice to quickly find your favorite entertainment. Use voice control to find movie titles, launch or change channels, and even switch inputs.

Product Highlights

Dolby Vision HDR

Dolby Vision delivers superior 4K high dynamic range display performance

Wide Color Gamut

TCL's NBP Photon technology delivers an expanded color space for a more colorful and lifelike picture

Contrast Control Zones

Contrast is optimized in each zone to deliver brighter whites and deeper blacks

HDR Pro Gamma

Details remain visible in any environment - from the darkest home theater to the brightest sun-lit living rooms

iPQ Engine

Precision color performance tailored to deliver accurate color reproduction and optimized DCI-P3 color space coverage

Natural Motion 240

Delivers exceptionally smooth clarity during fast action scenes.
