

Roomba® 209 DustCompactor™

Vac | Combo robot

Owner's Guide

iRobot

Getting Started

- 1 Remove protective film from camera and foam inserts behind bumper

- 2 Place your dock on hard, level surfaced flooring

NOTE: Do not place it in direct sunlight. Ensure the area around the dock is free of clutter to improve docking performance.

WARNING: To prevent the risk of your robot falling down stairs, ensure that your dock is placed at least 5 feet (1.5 meters) away from stairs.

3 Plug in your dock

Plug the power cord into the wall. Wrap the cord back so it won't get in the way of the robot as it comes and goes.

4 Install the Edge-Sweeping Brush

Align the edge-sweeping brush and press down until you hear a click.

5 Wake up your robot

Place robot in front of dock and slide it forward until the metal charging contacts are lined up. Its lights will indicate that it's waking up. A sound will let you know it's fully awake.

NOTE: Your robot comes with a partial charge, but we recommend that you charge the robot for 4 hours prior to starting the first cleaning.

6 Download the Roomba® Home App

The **Roomba® Home App** and a Wi-Fi® connection is required to complete set up. Scan the QR code with the camera on your mobile device or find the **Roomba® Home App** in your App store. The **Roomba® Home App** will guide you through steps to set up your robot. The app allows you to:

- Control when, where, and how you clean
- Create automatic cleaning schedules
- Set custom cleaning preferences
- Unlock digital features
- Access to tips, tricks, and answers to commonly asked questions

IMPORTANT: Read enclosed safety information guide first before using your robot.

About Your Roomba® 209 Series DustCompactor™ Robot

DustCompactor™ Bin

DustCompactor™ Bin

- 1 Compacting Arm
- 2 Filter
- 3 Bin Lid Release Button
- 4 Bin Lid

Water Tank (Combo models only)

Water Tank

- 5 Water Tank Release Button
- 6 Electrode Plates
- 7 Mop Pad
- 8 Water Tank Cap

Dock (Place against a wall)

Dock

- 9 IR Window
- 10 Charging Contacts
- 11 Power Port
- 12 Cord Attachment
- 13 Cord Wrap
- 14 Plug

NOTE: The water tank may contain a small amount of residual water due to quality inspection. This is normal.

NOTE: The DustCompactor™ bin must be installed for both vacuuming mode and vacuuming & mopping mode otherwise the vacuum-mop cannot be turned on.

Charging

Icon Indicators

POWER and HOME Buttons

White - Fully charged and connected

Flashing White - Return to dock to charge

Pulsing White - Charging/Low battery.
Displays when robot's battery falls below 20% and it is charging or on its way to charge

Flashing Red - Error/Low battery. Displays when robot has an error or when it's off the dock and its battery falls below 20%

Charging During a Cleaning

Your robot will return to the dock whenever it needs to recharge. Once it is sufficiently charged, it will then resume cleaning where it left off.

Standby Mode

Your robot uses a small amount of power whenever it is on the dock. You can put it in a further-reduced power state when not in use by pressing  for 10 seconds. To exit low power mode short press .

Storing Your Robot

For long-term storage, turn off your robot by removing it from the dock, then press and hold  and bumper together for 10 seconds. Store in a cool, dry place.

Cleaning

Button Controls

HOME – Tap to send the robot home
Press when running to pause
Press when paused to dock
Press when docking to stop

POWER– Tap to Start/Pause/Resume a job
Hold for 3 seconds to turn on
Hold for 10 seconds to turn off

Cleaning Pattern

Your robot will automatically explore and clean your home in neat rows. It will return to the dock at the end of a cleaning routine whenever it needs to recharge.

Tips:

- Remove excess clutter from floors before cleaning.
- Use your robot frequently to maintain well-conditioned floors.

After 90 minutes of inactivity off the dock, your robot will automatically end its cleaning. If you are unsure if it is finished or paused, visit the **Roomba® Home App** to check on its status.

Spot Clean

Tap  two times to spot clean a designated area.
After spot clean is complete, your robot will end the job.
Press  To send it back to its dock.

NOTE: It is highly recommended to use the **Roomba® Home App** for cleaning control. The mobile app can be used to clean specific rooms, set up cleaning routines, and create automations/schedules.

NOTE: Roomba Robots are generally designed to be used on most floor types for vacuuming. We do not recommend using mopping functions on unsealed hardwood floors and certain laminate/vinyl planks due to potential water damage to the flooring and/or subfloor. For more info, please visit global.irobot.com..

Vacuuming Only

- 1 If DustCompactor™ Bin is full, empty before starting a cleaning.

- 2 Remove water tank and mop pad, by pressing the tank release buttons on both sides of the robot to slide out.

- 3 To start cleaning, place the robot back on dock and use the app or press .

 **IMPORTANT:** Regularly cleaning the DustCompactor™ bin can prevent dirt from building up. Otherwise, the performance of the vacuum-mop may be reduced.

Vacuuming and Mopping

(combo models only)

Your robot is able to both vacuum and mop at the same time when the water tank and mop pad are installed.

Your robot will automatically avoid carpets in vac + mop or mop-only cleaning modes when water tank and mop pad are installed.

 **IMPORTANT:** If opting to add a cleaning solution to the water in the water tank, A full list of compatible cleaning solutions can be found on <http://answers.irobot.com/s/roomba-combo-cleanser> or by visiting the App.

- 1 Slide the mop pad along the slot of the water tank, and then attach the mop pad firmly onto the velcro.

- 2** Fill the tank with water by opening tank lid, filling the tank with water, and reattaching the lid.

CAUTION: Do not rinse the water tank or immerse it in water. To avoid corrosion and damage, do not use any detergent, disinfectant, solid cleaner, or other cleaning products on the water tank.

CAUTION: Do not add hot water to the water tank, as this may cause it to become deformed.

- 3** Reinstall water tank. Slide the water tank horizontally into the bottom of the robot until it clicks into place.

- 4** Place the robot back on the dock and use app or  to start cleaning.

NOTE: Before using, wipe the electrode plates of the water tank clean with a dry cloth.

NOTE: If your robot needs water in the middle of a job, tap  or press PAUSE in mobile app to pause. Remove tank, add water, and reinstall the tank. Press  or RESUME in app, to resume.

Care and Maintenance for your Robot

To keep your robot at optimal performance, make sure you periodically perform the following basic care & maintenance. There are additional instructional videos in the **Roomba® Home App**. If you notice your robot picking up less debris from your floor, empty the bin, clean the filter, and clean the brushes.

Part	Care Frequency	Replacement Frequency*
DustCompactor™ Bin	Empty bin as needed	-
Water Tank (combo models only)	Empty after each job	-
Filter	Clean once a week (twice a week if you have a pet)	Every 3-6 months
Edge-Sweeping Brush	Clean every 2 weeks or as needed	Every 3-6 months
Multi-Surface Brush	Clean once a week	Every 6-12 months
Front Caster Wheel	Clean every 2 weeks or as needed	-
Charging Contacts	Clean every 2 weeks or as needed	-
Sensors	Clean once a month or as needed	-
Mop Pad (combo models only)	Clean after mopping	Every 3-6 months. Dispose in household waste when no longer usable
Brush Cover	Inspect every 6 months	Replace if worn or damaged

* Replacement frequency may vary. Parts should be replaced if visible wear appears. If you think you need a replacement part, please contact iRobot Customer Care for more information.

Cleaning the Edge-Sweeping Brush

Pull to remove the edge-sweeping brush. Remove any hair or debris using the cleaning brush, then reinstall the edge-sweeping brush.

IMPORTANT: It is recommended to replace the edge-sweeping brush every 3-6 months for an optimal cleaning effect.

Cleaning the Multi-Surface Brush

- 1 Press the brush cover release tabs and lift to remove brush cover.

- 2 Remove the multi-surface brush.

- 3 Remove any hair and debris from the cleaning brush.

- 4 Reinstall the multi-surface brush and brush cover in the robot.

NOTE: For instructions to perform a deeper cleaning of the multi-surface brush, see global.irobot.com

IMPORTANT: It is recommended to replace the main brush every 6-12 months for an optimal cleaning effect.

Cleaning the Front Caster Wheel

- 1 Pull the caster wheel upwards to remove.

- 2 Remove hair and debris from the front caster wheel and the caster wheel cavity.

- 3 Reinstall the caster wheel.

IMPORTANT: A front wheel clogged with hair and debris could result in damage to your floor. If the wheel is not spinning freely after you have cleaned it, please contact Customer Care.

Cleaning the Charging Contacts and Sensors

Unplug dock from wall and wipe charging contacts and sensors with a clean, dry cloth or lightly dampened melamine foam.

CHARGING CONTACTS

SENSORS

IMPORTANT: Do not use spray cleaning solution, detergents or water onto the sensors or sensor openings.

Emptying the DustCompactor™ Bin and Cleaning the Filter

- 1** Press the DustCompactor™ bin release button to remove the bin.

- 2** Make sure bin is upright, and over the trash, push the release tab to open the bin.

- 3** Empty contents into the trash.

- 4** Remove the filter by pinching the tab and pulling the filter out.

- 5** Remove debris by tapping the filter against your trash container.

- 6** Wipe the bin with clean cloth.

7 Reinsert filter.

8 Securely close bin by closing latch and ensuring all sides are sealed

9 Place bin back in robot.

IMPORTANT: Squeeze all gaps that may exist around perimeter of lid. A proper seal on the bin is required for optimal operation.

Cleaning the Water Tank (Combo models only)

- 1 Simultaneously press and hold both the release buttons of the water tank, and then slide it out from the bottom of the vacuum-mop as illustrated.

- 2 Empty old water, rinse with fresh water.
- 3 Dry exterior of the tank well before reinstalling into robot

NOTE: If you use detergent to clean the tank, only use dish soap and be sure to rinse thoroughly before using in robot again. Soap can damage the robot during operation

NOTE: After mopping, immediately remove the water tank, empty out any remaining water, and clean and dry the mop pad to prevent lingering odor and mildew.

Cleaning the Mop Pad

Thoroughly hand wash the mop pad with cold water and let it air dry.

Care and Maintenance for Your Dock

To keep your dock running at optimal performance, perform the procedures on the following pages.

Part	Care Frequency	Replacement Frequency*
Charging Contacts	Clean once a month	-
IR Window	Clean once a month	-

* Replacement frequency may vary. Parts should be replaced if visible wear appears. If you think you need a replacement part, please contact iRobot Customer Care for more information.

Cleaning the Charging Contacts and IR Window

Inspect the components to make sure that they are clear of debris. Wipe with a clean, dry cloth.

IMPORTANT: Do not spray cleaning solution or water onto the sensors or sensor openings.

Troubleshooting

Troubleshooting Your Robot

Your robot will alert you if something is wrong with a voice announcement or audio alert. The **Roomba® Home App** will also provide notifications with steps to troubleshoot any issues.

If you are unsure if the robot is finished or paused, consult the **Roomba® Home App** to check on its status.

Factory Reset

To factory reset press  for 5 seconds and then (within 5 seconds) press  +  for 5 seconds.

BATTERY SAFETY & SHIPPING

WARNING: Lithium ion batteries and products that contain lithium ion batteries are subject to stringent transportation regulations. If you need to ship this product for service, travel or any other reason, you **MUST** follow the below shipping instructions.

- Battery **MUST** be turned off before shipping.
- Turn off the battery by removing the robot from the dock and holding down  for 10 seconds. Press the bumper in for 10 seconds while holding . All indicators will then turn off.
- Package the robot securely for shipping.

If you need further assistance, please visit your **Roomba® Home App**, contact our Customer Care team or visit global.irobot.com.

Troubleshooting Your Dock

If the dock is not performing as expected, check the **Roomba® Home App** for errors.

Need Further Assistance? We're Here to Help.

Download the **Roomba® Home App** or visit global.irobot.com for product support or to contact your local support center. If you need further assistance in the US & Canada, call the US Customer Care team at (877) 855-8593.
