- Acer VisionCare Technologies
- Ports: 1 x HDMI 1.4 Port & 1 x VGA Port

#### What's in the Box

- Display
- Stand
- Power Cord
- HDMI Cable

#### Key Features

#### Web Description

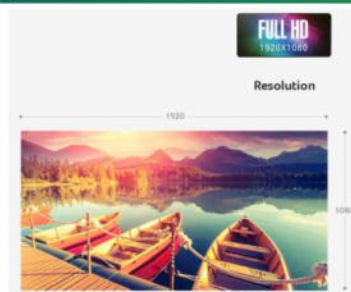

Acer EK271 P6bi 27" 1920 x 1080 IPS Monitor with AMD FreeSync Technology, Up to 144Hz Refresh Rate, 1ms (VRB), 99% sRGB, (HDMI Port 1.4 & VGA Port)

### Incredible Images

Ideal for everyday computing, the Acer 27" Full HD display features a ZeroFrame design, ultra-thin profile and ErgoStand, making it a sleek addition to your home or office setup. Through AMD FreeSync technology, the game's frame rate is determined by your graphics card, not the fixed refresh rate of the monitor, giving you a serious competitive edge. Built-in HDMI port makes for easy connectivity to laptops, desktops or gaming consoles.

#### Features

#### Vibrant Images

Crisp, true-to-life colors come alive in Full HD 1080p resolution. Movies and games appear more real and dramatic, and small details and text are clear with 1920x1080 resolution in a 16:9 aspect ratio.

#### Responsive!!

Fast response time of 1ms enhances the experience. No matter the fast-moving action or any dramatic transitions will be all rendered smoothly without the annoying effects of smearing or ghosting. With up to 144Hz refresh rate speeds up the frames per second to deliver smooth 2D motion scenes.

#### ZeroFrame Design

With a EK271 monitor, you'll want to see as much of the display as possible. Get more monitor real estate with the near bezel-less design, allowing you to see more and do more. The ZeroFrame design lets you place multiple monitors next to each other for a seamless, almost uninterrupted view.

#### Tilt

#### Adjustable Tilt

Find the working angle that suits you best with a screen that tilts from -5 to 20 degrees. These monitors are also wall-mountable, giving you clear views with more room.

#### AMD FreeSync

Say "goodbye" to stuttering and tearing. With AMD FreeSync, the monitor's frames are synced with the graphics card's frames, which eliminates screen tearing and provide the smoothest gaming experience.

#### Acer VisionCare Technologies

AcerVisionCare technology incorporates several features that take into consideration prolonged usage by heavy users such as programmers, writers, and graphic designers to reduce eye strain and provides a more comfortable viewing experience.
