

MICROWAVE - Built In, Over Range: Measurement Guide

- Use this as a guide to make sure the appliance you want fits in the space you have available.

1

Measure the opening where the appliance will go.

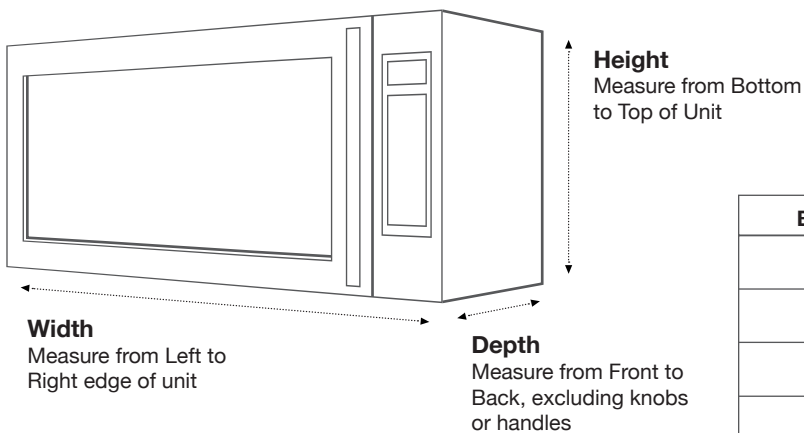

► ENTER MEASUREMENTS IN INCHES

Width	<input type="text"/>
Depth	<input type="text"/>
Height	<input type="text"/>

Minimum height is 30". Microwave hoods require 30" from the cabinet bottom.

2

Verify the appliances you're considering to fit within the measurements you took in Step 1.

Brand	Model	Width	Depth	Height
