Panarama Shooting

The MN26Z packs a punch with its powerful 26x optical zoom capability. Shoots both long distances and close-ups in crisp detail and convenient optical stabilization features helps keep photos steady when camera shake is detected. User-friendly features like face, smile, and blink detection make it easy to capture the perfect photo and a variety of 13 scene modes including Night Portrait, Panorama and Sunset make it simple to shoot in any setting possible. Includes WiFi for easy integration with your smartphone.
