## More screen, great color and superior eye care to get more done comfortably.

### All-expansive view

Minimalist design, maximum concentration. The three-sided borderless display brings a clean and modern aesthetic to any working environment. In a multi-monitor setup, the displays line up seamlessly for a virtually gapless view without distractions.

### Seamless, smooth visuals

Now, content looks flawless. The 75Hz refresh rate ensures every frame on screen moves smoothly for fluid scenes without lag. Whether you're finalizing a work presentation, watching a video, or playing a game, your content is projected without any ghosting effect.

### Superior eye care

Protect your eyes and see more. The advanced eye comfort technology reduces eye strain for less strenuous extended computing. Flicker Free technology continuously removes tiring and irritating screen flicker, while Eye Saver Mode minimizes emitted blue light. Your eyes stay fresh longer.

### Synchronized action

A super fluid entertainment experience. AMD FreeSync keeps your monitor and graphics card refresh rate in sync to reduce image tearing. Watch movies and play games without any interruptions. Even fast scenes look seamless and smooth.

### More gaming power

Optimized game settings instantly give you the edge. View games with vivid color and greater image contrast to spot enemies hiding in the dark. Game Mode adjusts any game to fill your screen with every detail in view.

### True versatility

Connect to more. With both HDMI and DP ports, multiple devices can be plugged straight into your monitor for complete flexibility. Now, your computing environment is even more convenient with additional input possibilities.
