- **Ultra-Slim Design**
- **α7 Gen 4 AI Processor w/ AI Picture + AI Sound**
- **TruMotion 240 (Native 120Hz)**
- **Dolby Vision IQ + Dolby Atmos**

DESCRIPTION

The upgrade you've been waiting for.

More of what you want in one ultra-slim, XL 4K package. It's Ultra High Definition backed by our premium processor and AI to enhance color, contrast and sound. It's fast, fluid action with a 120Hz refresh rate, plus cinematic sight and sound from Dolby Vision and Dolby Atmos.

KEY FEATURES

Ultra-Slim Design

Thinner profile. Bigger experience.

A sleek bezel that puts the focus on your content. We designed LG UHD TVs to be thin in profile with a lightweight frame that's perfect for both mounting on a wall or displaying on a stand.

α7 Gen 4 AI Processor

Crystal-clear images, automatically.

Savor every detail. Our powerful α7 Gen 4 AI Processor 4K uses AI technology to automatically enhance both picture and sound. You don't have to press a button.

TruMotion 240 (Native 120Hz)

Frame-to-frame flow.

TruMotion 240 technology reduces blur to sharpen every detail with up to 240 frames per second—giving fast-moving gaming sequences a crystal-clear look for picture that moves with you.

Dolby Vision IQ + Dolby Atmos

Cinema in a snap.

Dolby technology drives cinematic picture and sound. Dolby Vision IQ automatically adjusts your TV's picture settings based on what you're watching, while Dolby Atmos envelops you in sound that seems to move all around you.

Latest HDMI

The fastest HDMI speeds.

The latest HDMI 2.1 technology powers a more lifelike gaming experience with smooth, fast-moving content in higher resolution.
