## Warranty Information

Congratulations, you have purchased one of the finest sleep systems available. Sealy guarantees the replacement or repair of your mattress or foundation ("boxspring", or "rigid foundation") if, in normal use, either piece fails to meet our high standards for quality and workmanship.

Be aware that body indentations are a normal occurrence in new mattresses, and indicate the upholstery layers are conforming to your body's contours. Please read the Limited Warranty guidelines and limitations, and then register your sleep set online at sealy.ca.

You may access more information on proper sleep set care through our website. Please keep your sales receipt and Sealy Certificate of Limited Warranty in a safe place. Please do not remove the law tag attached to the mattress or boxspring.

### How long is the limited warranty?

Coverage begins on the date of purchase and follows the "Warranty Schedule" found online at sealy.ca or call Customer Service at 1-800-268-4414. If Sealy repairs or replaces your sleep set, the Limited Warranty continues from the original date of purchase.

### What is covered by the limited warranty?

The Limited Warranty is only valid for the original purchaser of the mattress and foundation set, and only covers manufacturing defects in a mattress or foundation when the set is subject to proper handling and normal use in conjunction with a bed frame that provides continuous support. To provide continuous support, a Queen or King frame must have 1) a rigid bridge bar with a supporting leg **and** 2) at least 5 legs, or 5 equally spaced hardwood cross-slats (see examples below or online at sealy.ca). If slats are spaced more than 2" apart, a solid platform is required

to be placed on top of the slats. Replacement of one piece in the set does not guarantee replacement of the other piece in the set.

**Mattress:** Torn handles, stitches pulled out of the handle where sewn to the mattress, or tears in the mattress fabric where the handles are attached, coils or wires that are loose or broken, coils or wires that protrude or rip through the fabric, body indentations as outlined in the Warranty Schedule.

**Foundation:** Splits in the wood frame, squeaks, rattles or noises, broken, loose or defective beams and/or center support rail, loose or broken module wire, compression of modules, unstapling of modules. Must be a Sealy or Stearns & Foster mattress and boxspring.

*Examples of Proper Bed Frames for Queen and King Size Bedding.*

### What is NOT covered by the limited warranty?

The Limited Warranty excludes: mattress fabric (covers with stains, soiling or burns), comfort preference, bed height, spills, bent or broken border/grid wires which run along the perimeter of the mattress and foundation due to moving or bending the sleep set, mattress or foundation damage due to abuse or abnormal use, damage due to use with an inappropriate foundation, used bedding, bedding sold "As Is", floor models, damage due to bed frames that do not provide continuous support, damage incurred by transportation or delivery, sheet fit and costs
