

ACA Manager

A Simple Solution for Affordable Care Act Reporting

Manager is a scalable solution designed for corporate and enterprise clients alike to manage the entire ACA reporting process from simplified data import, validation and corrections to form generation, printing, and regulatory reporting for ACA tax forms.

3 Steps to ACA Compliance Success

- 1 Import:** Upload your information in any flat file format to ACA Manager and easily map data into the correct fields.
- 2 Fix:** Validate and correct your ACA data's accuracy within ACA Manager. Our solution identifies any missing or incomplete information for the user to correct.
- 3 Send:** Once all data has been validated, send the forms off to your employees, dependents and recipients. Then send the authoritative transmittal to the IRS.

Leverage Our Technology, Expertise, and Industry Experience

As the largest private filer of 10-series forms, Sovos Compliance has over 35 years of experience in Tax Information Reporting. Sovos ACA supports over 1,000 companies and provides services to nearly 20 million households, making up 13.4% of non-government insured individuals in the United States. We support businesses from SME to Fortune 500 companies with their ACA reporting. With tens of millions of ACA tax forms completed for clients in Tax Year 2023, our solution is a proven platform to give organizations peace of mind with their obligations.

Clear Compliance

▶ **Easy Import**

With enhanced import integration, the very DNA of your data is analyzed and linked to the correct form boxes. The next time you import similar data formats, ACA Manager already knows what to do with them.

▶ **Data Validation and Correction**

Proactively validate your information before needlessly wasting time on rework. Data can be corrected real-time to generate an updated form to be sent to the recipient.

▶ **Highest Level of Security**

Sovos holds itself to the highest security standards available while maintaining a large degree of flexibility for user permissions based on role, function and data.

▶ **Print and Transmit**

No more wasted time on print parties, ink, paper and boredom. We handle the secure printing of every form and speedily transmit each to the IRS and your recipients. Press a button and you're done. It's that easy.

▶ **Corrections Made Easy**

ACA Manager allows you to easily reprint or update current and prior year forms while tracking changes, and electronically submitting the revised information to the IRS is as easy as pressing a button. All tax information and forms, from the current year up to three prior years, are available whenever and wherever you need it.

▶ **State Reporting**

Reporting requirements vary drastically from state-to-state, making it extremely difficult for human resource departments to track and implement changes as they evolve. California, District of Columbia, New Jersey, and Rhode Island each currently have individual mandates that require ACA reporting under statespecific formats. Our solution generates accurate and compliant state information, and allows you to streamline your state reporting process.

Managed Services

Sovos' Managed Services offering can help your organization focus it's strategy and reduce staff outputs for managing ACA reporting. With Managed Services, Sovos creates a schedule for the tax year and drives reporting processes in a year-round cycle, relieving you of the burden of process creation and greatly diminishing the risk of missed filing deadlines and penalties. Staff can focus on core business initiatives while Sovos handles ACA reporting on your behalf.
