Finishes

Upholstery and clad finishes

Our vast range of standard finishes allows you to curate the perfect aesthetic to complement your design.

Explore our full range of Cladding and Upholstery finish options on the website below. If your desired finish isn't listed, please get in touch to discuss additional options.

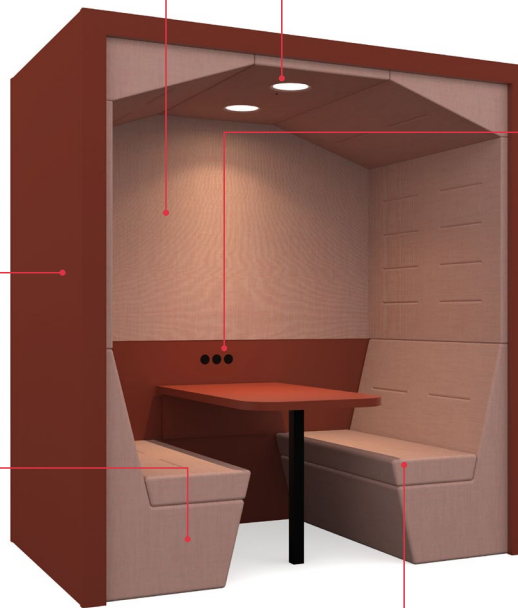

Key Features

Upholstery fabric will be selected from approved contract-quality ranges, with a minimum Martindale test of 45,000 rubs and tested to Crib 5 or C&M. Fabric and foam comply with BS 7176: Non-domestic seating – Standard Brief, which specifies ignition resistance requirements in accordance with BS 5852 and BS EN 1021-1/2, as appropriate.

Layers of furniture grade cladding, acoustic foam and upholstery create a sound-absorbing cocoon around the users

Upholstered Back variations have 2 x Regional Power, 1 x Twin USB (USB-A & USB-C)
Open Back variations, power can either be placed in the front of the seat or the end of the seat and consists of 2 x Regional Power, 2 x Twin USB (USB-A & USB-C)

PIR activated low-voltage LED lighting. When unoccupied, the system powers down as an energy and cost saving measure.

Power sockets are fused and installed flush with the surface to comply with BS1363.

All UK and European socket types, data sockets and USB chargers are CE marked and certified by the manufacturers to comply with the relevant standards;

- Electromagnetic Compatibility Directive 2014/30/EU
- Low Voltage Equipment Directive 2014/35/EU
- RoHS2 Directive 2011/65/ EU

Removeable Seat Pads
