HOOKED ON WILD ALASKA POLLOCK

Our Wild Alaska Pollock is one of the most abundant species available, and it's certified sustainable. Caught in Alaska's icy waters and flash-frozen soon after harvest, it's pre-portioned, trimmed, and ready to use, saving both time and money. Wild Alaska Pollock is great for chowder, club sandwiches, piccata, and more.

And because it cooks up easily from frozen, you can add it to your menu in no time.
