Pulp & Paper

The pulp and paper industry, valued at nearly \$100 billion, employs over 355,000 workers in the U.S. Inherent risks, from loading and unloading timber and chemicals to managing chippers and conveyors, necessitate stringent safety measures to protect employees and keep businesses safe and compliant. ErectaStep's modular access solutions, including Crossover Stairs, Access Platforms, Spill Containment, Mobile Platforms, and Safety Gates, are designed to meet these challenges head-on, ensuring compliance with OSHA regulations while enhancing safety and productivity.

ErectaStep solutions provide versatile, customizable options tailored to the unique demands of the pulp and paper industry. Our Crossover Stairs and Access Platforms offer secure and efficient passage over obstacles, while Spill Containment systems help manage hazardous spills, reducing environmental impact. RollaStep Mobile Platforms provide flexible access solutions, and YellowGate Safety Gates offer fall protection that is easy to install to protect any passageway in your facility. Our products are designed with your Pulp & Paper facility's safety, ergonomics, and productivity in mind.

Features

- **Modular Design**
Easily customizable and expandable to fit any workspace requirement.
- **Durable Construction**
Made from high-quality materials to withstand harsh industrial environments.
- **OSHA Compliance**
Designed to meet or exceed OSHA safety standards.
- **Quick Installation**
Prefabricated components ensure fast and easy assembly.

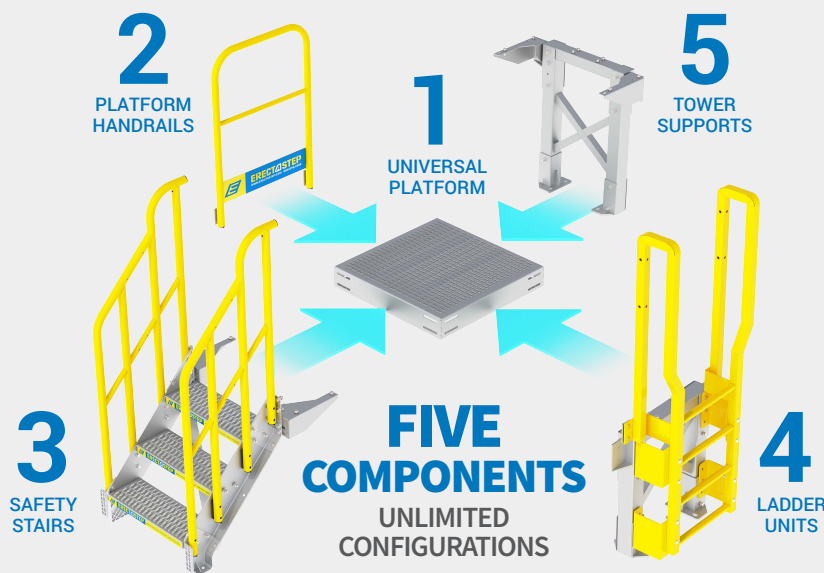

Modular Access Solutions

Safety & Efficiency in Harmony

Five simple components create unlimited configurations. Our aluminum stairs and access systems can be configured to meet any application. Customized components are available to meet the needs of your specific design.

Crossovers

ErectaStep's OSHA-compliant Crossover Stair is a durable and versatile solution for pulp and paper facilities. Designed for the complex needs of your facility, it allows for safe navigation over obstacles of all kinds.

Maintenance Platforms and Catwalks

ErectaStep's Maintenance Platforms and Catwalks offer a practical and safe solution for routine tasks in pulp and paper facilities. Built from sturdy, industrial-grade aluminum, these OSHA-compliant structures are designed to withstand environments with extreme weather conditions or the use of harsh chemicals.

Stair Towers

Our Stair Towers provide a secure and efficient solution for accessing high-level areas in facilities such as the tops of large tanks, or as secondary exits. Constructed from industrial-grade aluminum, these OSHA-compliant towers are built to withstand the demands of the pulp and paper industry.
