Explosion & Non-Explosion Proof Stop & Go Communication Lights and Switches

Stop & Go communication lights alert drivers and dock loading and unloading personal, with highly visible green and red maintenance free LEDs, to the status of the loading area. When paired with a limit switch and attached to a SafeRack Gangway, operators now have a clear signal for when the top of the vehicle is cleared for movement. Keeping your employees and equipment safe.

NON-EXPLOSION PROOF

EXPLOSION PROOF

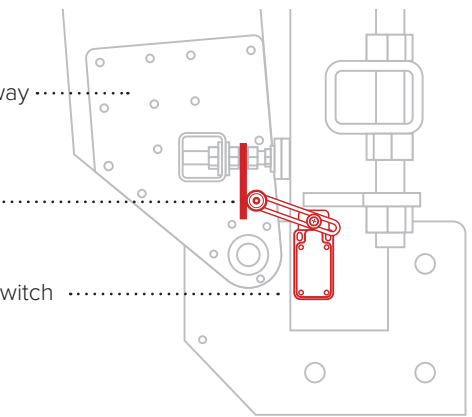

NON-EXPLOSION PROOF

Stop & Go Communication Light and Switch

The lights are made from a durable plastic, the unit will not rust, pit, or corrode. Integral eyebrow sun visors provide improved visibility, shielding lamps from the glaring sun or freezing snow. The non-explosive proof Stop & Go Light is a visual assistant that has been designed to help prevent drive-offs, that can damage equipment or the transportation vehicle, causing costly downtime for your business.

Non-Explosion Proof Communication Light
Safety yellow housing
Energy efficient
120 VAC and 24 VDC units available
UL and cUL certified
IP54 rated for dust and water resistance

Non-Explosion Proof Limiter Switch
Glass fiber reinforced plastic body
IP67 waterproof rating
Galvanically separated contacts
Screw terminals with self-lifting clamps for easy wiring
1/2" NPT Conduit opening

EXPLOSION PROOF

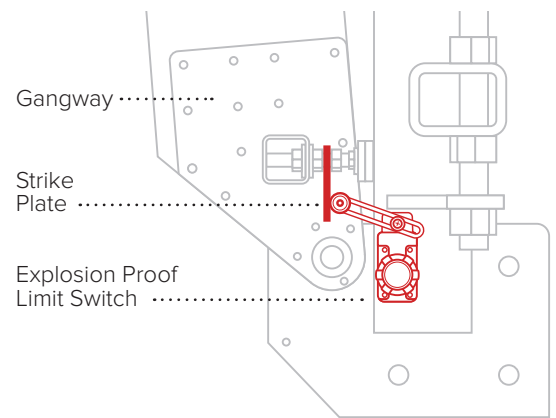

Stop & Go Communication Light and Switch

This explosion proof LED stack light is designed for routing traffic, signaling, and visual indicators for industrial refueling stations and process status indications for manufacturing facilities by meeting Class 1, Division 1, Groups C & D, and Class 2, Division 1, Group E, F, & G classification.

The light housings are constructed with a polyester powder coated copper free aluminum casting. The mounting plate is constructed of non-sparking aluminum. The explosive proof Stop & Go Light is a visual assistant that has been designed to help prevent drive-offs, that can damage equipment or the transportation vehicle, causing costly downtime for your business.

Explosion Proof Communication Light
Powder coated aluminum cast housing
Energy efficient
120-277VAC and 24 VDC units available
UL and cUL certified
IP67 waterproof rating

Explosion Proof Limiter Switch
IP67 water proof rating
Class 1, Division 1, Groups C and D
Class 2, Division 1, Groups E, F, and G
Rugged Aluminum, epoxy coated body
1/2" NPT Conduit opening
