DEA Approved Drug Storage Cages

When properly installed, WireCrafters Style 840 Partitions meet the US Drug Enforcement Administration's (DEA) requirements for physical security of Schedule III through V controlled substances as outlined in Title 21 CFR Sections 1301.72-1301.76 physical security controls. This drug storage application of WireCrafters wire partitions is ideally suited for pharmacies, pharmaceutical companies, medical facilities, distribution centers, record storage, drug warehouses, and much more.

WireCrafters DEA approved secured storage cages feature self-closing and self-locking doors, and wire mesh walls and ceiling panels constructed of a 2" x 1" 10 gauge wire. 2" square steel support posts are spaced no more than 10' apart, with welded-on base plates for lagging to the floor. The walls of the drug storage cages have a minimum of 1 1/2" horizontal reinforcement at least every 5'. The panels mount flush to floor, and utilize heavy 3/8" hardware which is non-accessible from the exterior. WireCrafters panels are stackable to any height and clear spanning ceilings up to 30'.

Features

- Self closing, self locking doors
- Wall & ceiling panels constructed of 10 gauge wire
- Steel support posts 2" square
- Posts have welded on base plates for lagging to the floor
- Walls have minimum 1-1/2" horizontal reinforcement at least every 60 inches
- Standard mesh has 2"x1" rectangular opening
- Panels mount flush to floor
- Heavy 3/8" hardware non-accessible from the exterior
- Panels stack to any height
- Clear spanned ceiling up to 35' across
