

Modular stairs, ramps and canopies

Experts in compliant access, egress and canopy systems for commercial buildings

Upside's APEX system is a modular, prefabricated line of ADA and IBC stairs, ramps, and canopies. Industrial-grade aluminum components bolt together to create infinite configurations, eliminating custom fabrication, code compliance issues, and time-consuming engineering, while reducing costs, installation time, and complexity.

Common applications include:

Canopy and stair systems for schools, hospitals, restaurants, parks, business and university campuses. Plus, awnings for individual doors, or the whole side of a loading dock.

BIM files and specifications can be found at:

The Upside Features

Code compliance

Prefabricated to comply with ADA, IBC, and most local building codes

Modular design

Can be configured and reconfigured for an infinite amount of applications

Available now

In-Stock and ready to ship

Internal drainage system

All of our canopy systems are designed with a gutter system and deflector plate, so water doesn't flood the entryway.

Any weather condition

Designed for local snow and wind loads

Industrial grade aluminum

Low maintenance and will never rust, warp, or rot

RAMPS

Upside's modular ramps, stairs and railings can be reused or reconfigured as your needs change, with self-leveling legs made to adjust to uneven ground. Our ramps, platform landings, legs, and handrails bolt together without any on-site welding.

Our products are made from long lasting aluminum, slip-resistant decking and continuous handrails, allowing our product to comply with ADA and IBC building codes.

STAIRS

Upside's prefabricated, rust-free aluminum stairs are low maintenance and have a long product life. Our stairs and platforms follow your required OSHA, IBC or ADA stair code and our customizable modular stairs can help you reach any height you need.

CANOPIES

We can design a walkway canopy to meet your application whether it is a straight sidewalk or a walkway with multiple branches and turns

Color options

We offer many color options besides standard white, so you can achieve the desired appearance for your property
