PLATFORM TOOL STORAGE

SafeRack is the worlds largest manufacturer and integrator for railcar and truck loading facilities. Clean up your platform work space with an integrated storage tool box. The platform tool box easily replaces the standard SafeRack HR6 handrail making this product an easy install. The platform storage box provides ample storage for tools and other commonly used items used for loading and unloading.

ELIMINATE TRIP HAZARDS ON PLATFORMS

Take control of your platform work space. The loading and unloading process can require specific tools. When these tools are not in use they can become a tripping hazard if placed on the platform walking surface. Keep your workers safe from these tripping hazards by providing a location to store commonly used tools.

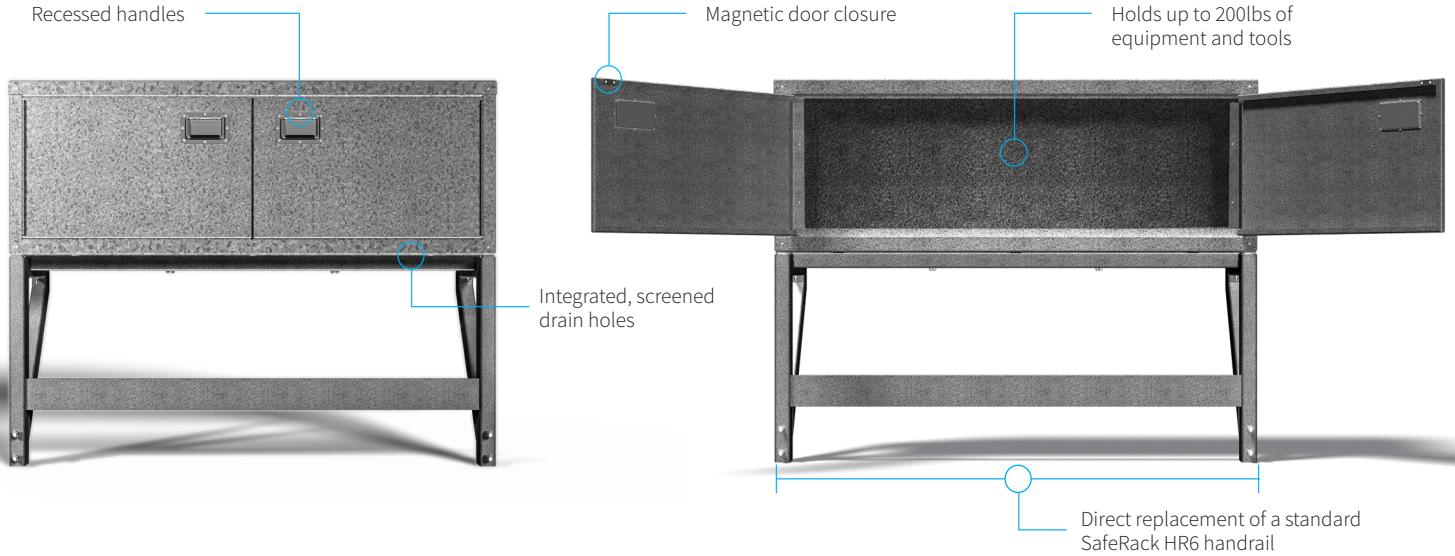

Increase efficiency by providing your workers with a consistent place to store commonly used tools. Misplacing a necessary tool or leaving tools laying around to be lost can be a timely error. Providing a consistent location to store necessary tools can decrease these down times and keep your workplace organized and running smoothly.

Features

- **Proudly made in the USA**
- **Galvanized steel**
Made with corrosion resistant galvanized steel.
- **Magnetic door**
Catches to keep doors closed when not in use.
- **Integrated, screened drain holes**
for the extreme weather drainage.
- **Recessed handles**
Allows for easy installation and eliminates snags when walking on platform.
- **Multiple piece construction**
for easier / safe installation. No field drilling required for direct replacements.
- **Direct replacement of a standard SafeRack HR6 handrail**

CLEAN UP PLATFORM SITES & WALK SURFACES

PLATFORM ORGANIZATION

KEEP ALL YOUR PLATFORM TOOLS ORGANIZED

- ✓ TEFLON TAPE
- ✓ T-WRENCHES
- ✓ ADJUSTABLE WRENCHES
- ✓ PIPE SPOOLS
- ✓ SAMPLING BOTTLES
- ✓ RUBBER MALLETS

PLEASE NOTE:

If the tool box is a retro fit to an existing platform that is **NOT** a SafeRack platform it is the customers responsibility to insure their structure is adequate to support the equipment.
