

SIXAXIS FLY-IN PROGRAM

SIXAXIS FLY-IN PROGRAM

The SixAxis Fly-In Program is a one of a kind, custom designed program centered around you and your business.

The SixAxis Fly-In Program is presented in a way that brings out real life situations that you and your employees deal with on a daily basis. Our program is all about getting these issues out in the open and presenting viable solutions.

The Fly-In focuses on providing education, consultation, solutions, and expertise. All while getting to know your SixAxis representative and learning about the invaluable service they can provide to you and your business.

The SixAxis Fly-In Program provides you with a fully operational, climate controlled, full-scale training center. Offering you the opportunity to visit the world's largest supplier of industrial platforms, stairs, handrails, and a wide range of safe access equipment for trucks and railcars and barges.

Why not make time after the program to explore everything that South Carolina has to offer. From fishing the local ocean and inlet areas, visiting the surrounding scenic historic locations, to simply enjoying the nearby Atlantic coastline beaches, restaurants and entertainment.
