

MADE IN THE USA: A PROMISE OF QUALITY AND AMERICAN PRIDE

THE ESSENCE OF AMERICAN MANUFACTURING

In every product manufactured by SixAxis lies the spirit of American ingenuity and craftsmanship. For us, "Made in the USA" is more than just a label; it's a commitment to excellence, national pride, and job security for American workers. This designation is not just about where our products are made; it's about quality and the values they represent. Studies show that 70% of Americans prefer American-made products, recognizing the inherent promise of quality and reliability they bring.

Strict Adherence to Standards

Our adherence to the "Made in the USA" label is guided by the definition as stated by the Federal Trade Commission (FTC) which states that, "... all or virtually all significant parts, processing and labor that go into the product must be of U.S. origin." We take pride in ensuring that products from our SixAxis family of brands including ErectaStep, SafeRack, and Upside meet these standards, reflecting our commitment to American quality and workmanship.

Advantages of Home-Grown Manufacturing

Products manufactured in the USA assure adherence to American quality and regulatory benchmarks. These encompass more sustainable production methods and stringent health and safety standards for products, making them a conscientious and responsible choice for customers. Purchasing products made in the USA upholds the welfare of American laborers, safe work environments, and stringent regulations against child labor. Jobs shipped overseas rarely make their way back to the States. By choosing products made in America, you contribute to the vitality and expansion of our economy.

Manufacturing within the United States also offers unparalleled control over our supply chain. This control translates to numerous benefits: no worries about trans-ocean shipping costs, currency fluctuations, tariffs, or complex international trade agreements. The efficiency of procuring

materials domestically means we don't need to maintain large inventories, allowing us to be more agile and responsive to customer needs. This approach, which applies to all our products, ensures faster delivery and fulfillment, enhancing our operational nimbleness and customer satisfaction.

A United Pledge Across Our Brands

At SixAxis, we stand united under the "Made in the USA" banner. This unifying promise signifies more than just the origin of manufacture; it represents our dedication to creating safe, efficient work environments with products that are crafted with American pride. We ensure that our SafeRack, ErectaStep, and Upside employees, and those of our customers, benefit from the safest, most productive, and compliant work environments.

Choosing SixAxis: Choosing American Excellence

With SixAxis, you're choosing more than a product; you're choosing a legacy of American quality, innovation, and a commitment to excellence. Join us in embracing a future where American manufacturing leads the way in creating safer, more efficient, and successful workplaces around the world.
