

# Ultra-Aqua Bags

**ULTRATECH**  
INTERNATIONAL, INC.

## Sandless sandbags protect property against floods, leaks, and other liquid emergencies

The Ultra-Aqua Bag is a revolutionary water barrier or sandless sandbag providing an effective solution for protecting property against floods, water heater leaks, broken pipes, overflowing toilets and other liquid emergencies.

- Easy to use and transport - weighs less than a pound and measures 17" x 22" when dry. At full absorption they provide between 30 to 40 pounds of flood stopping weight.
- Sturdy construction - Hydrophilic, non-woven fabric covers four layers of patented super-absorbent polymer.
- Quick acting - In minutes, the bag absorbs water to 90% capacity, preventing floods and leakage from causing damage.
- Engineered consistency - designed and built to maintain a consistent shape throughout the Bag. Other bags tend to slump to the bottom end when picked up, will not stack as well and are not as effective at sealing off water.

Optional staging pool can soak 15 bags at a time

Bags will absorb up to 4 gallons (40 lb equivalent) in just minutes

| Part#       | Description                                                                                                                 | Dimension per Dry Bag in. (mm) | Dimension per Absorbed Bag in. (mm) | Dimension per Dry Bag in. (mm) | Absorption Capacity per Bag gal.
