AirSpeed® MINI PAK'R® INDUSTRIAL Applications

Benefits

- **Sustainable:** Integrates perfectly with sustainable films.

- **Versatile:** The MINI PAK'R Industrial can be used in different settings. And with a wide choice of configurations, there are many packaging applications available.

- **Efficient:** The MINI PAK'R Industrial produces film whenever and where-ever you want.
- **Compact:** The machine is 36 cm long, 33 cm wide and 28 cm high and weighing only 6 kg.

- **Easy to load:** To load the film is simple and takes only a few seconds.
- **Easy to use:** Using RFID technology, the MINI PAK'R Industrial automatically selects the correct seal temperature, air flow and pressure seal for each film.
