Pregis
Automated Mailing & Bagging

Sharp Max Series Automated Baggers

The Pregis Sharp™ Max Series is built for operations that demand speed, flexibility and high-performance bagging. It is engineered to support hand-feed through full automation and maximize output across complex fulfillment needs.

- **High-Speed Performance:** Designed to power through large order volumes with precision, consistency and minimal downtime

- **Complex Bagging Support:** Engineered for seamless operation in challenging workflows

- **Integrated Accuracy:** Built-in Zebra printer and WMS connectivity deliver fast, accurate shipping label output

- **Minimal Downtime:** Toolless changeover at the press of a button keeps operations moving

4X the output of manual packing

ROI achieved in as little as **9** months

Powering Performance In High-Volume Fulfillment for:

- 3PL
- Building Materials
- Ecommerce
- Industrial
- Injection Molding
- Medical Accessories
- Pharmacy
- Retail Products

Need replacement parts for your Sharp Max series bagger?
