AirSpeed® MINI PAK'R® Industrial

Renew™ Double Cushion

- Contains 30% Post-consumer recycled (PCR) content
- 100% recyclable
- Large void fill

These AirSpeed Renew air bags are created out of 30% Post-consumer recycled content. We strive for a circular economy and this recycled content embodies this. It is made from products that served end-users, after which it has been recycled. It is sustainable and circular... the print included! This is printed on each air cushion with a water-based ink, so it's not harmful to the environment.

- Size cushion: WxL = 400x150 mm
- Thickness: 35 micron
- Material: LDPE
- Complies with EN13427 standard for packaging and packaging waste
- Product code: 4082951

Machine & Accessories

The **MINI PAK'R Industrial** is a compact and versatile machine producing air cushion on-demand. Compatible with Integrated Systems and a large range of accessories, the machine is the right solution for warehouses and distribution centers with multiple packing tables. Using RFID, the film settings are automatically selected, which make the machine easy to use.

Inflator

Mobile Fill

Top Fill

A Renew air cushion that allows a high-quality protection thanks to the air-transfer technology, which improves shock absorption.

Circular

Lowers CO₂ emission

EuCertPlast certified PCR

Applications

• Void Fill

• Block & Brace
