

Pregis

AirSpeed® Ascent™

High-pressure Air Cushioning System

Pregis AirSpeed® Ascent™ is a premium high-pressure air cushioning system that produces Pregis AirSpeed Hybrid Cushioning (HC) for the highest level of product protection. This high-performance, compact system helps increase throughput and creates consistent, premium protection.

RELIABILITY

- Patented seal technology – superior inflation ensures consistent cushioning
- Low maintenance design for more uptime
- Pressurized film for improved cushioning

PACKER-CENTRIC OPERATION

- Designed to protect packers, no exposed parts
- User-friendly interface – start-stop operation
- Eliminates variability and human error

HIGH PERFORMANCE

- Smart logic identifies film and optimizes system settings
- Up to 100 FPM throughput for high-volume operations

Size: 19" x 16" x 23"

Weight: 31 lbs.

HC

Hybrid Cushioning

Pregis AirSpeed Hybrid Cushioning (HC) proprietary square pattern provides a premium aesthetic and more surface area to absorb shock for the highest level of product protection.

HC inflates on-demand, saving space and reducing shipping costs compared to traditional bubble.

Applications

Cushioning | Wrapping | Blocking and Bracing

Ultimate
protection

Customer
experience

Damage
prevention

HC's proprietary square pattern provides more surface area to absorb shock providing superior product protection.

Pregis AirSpeed® HC

Hybrid Cushioning

HC Barrier

Ultimate Protection

- Ultimate protection for fragile or heavy products
- Superior air retention for longer ship or storage cycles
- Only high-performance barrier film designated with How2Recycle® Store Drop-off label

HC Inspyre™

Purpose-Driven Protection

- 1% of sales are donated to help fight water insecurity
- "Wow" customers and Inspyre connection

HC Renew™ PCR

Next Level Sustainability

- Only high-pressure cushioning made with 80% post-consumer recycled content
- Reduces consumer landfill waste
- Printed with 80% PCR and How2Recycle® label

HC Renew™

Standard Sustainability

- Made with minimum of 30% recycled content
- Green tint ties to sustainability

HC Renew™ Ultra

Efficient Protection

- Engineered for higher yield and fewer roll changes
- Made with a minimum 30% recycled content and tinted green
- Ideal for lighter, lower-risk products up to 10 lbs

 Heavy items	 Fragile items	 Extended ship cycles
Product Availability: Width 12" / Loft ½", ¾", 1", 1¼" Width 24" / Loft ½", ¾", 1"		
 Give back	 Light to medium products	 Standard ground shipments
Product Availability: Width 12" / Loft ¾", 1"		
 80% PCR	 Light to medium products	 Standard ground shipments
Product Availability: Width 12" / Loft ¾"		
 Recycled content	 Light to medium products	 Standard ground shipments
Product Availability: Width 12" / Loft ¾", 1" Width 24" / Loft ½"		
 Efficient design	 Light products	 Standard ground shipments
Product Availability: Width 12" / Loft ¾"		

All films are designated with a
How2Recycle® Store Drop-off label.
