

Pregis® Paper Packaging Solutions

The Pregis Difference

Sustainability

Pregis Easypack® paper offerings include FSC® certified paper options. The FSC® (Forest Stewardship Council®) system certifies that paper has been harvested in a socially and environmentally responsible manner.

Safety

No blades or exposed parts keeps packers safe from harm.

Reliability

Portfolio of high-quality reliable equipment, requiring little maintenance. Easypack systems never jam maximizing uptime.

Versatility

Wide range of paper options and on-demand systems with flexible design features to fit any packing environment or application.

Simplicity

Load and go in 30 seconds or less!

The quickest and easiest machines on the market to load and operate. Ergonomic roll loading and intuitive controls increase worker productivity and safety.

World Class Support and Service

Packaging should excite customers, motivate prospects, reduce shipping and fulfillment costs, and (of course) protect your products. To ensure you're getting the most out of your packaging, Pregis offers unrivaled consultative and technical services and industry-leading training support.

Consultative Services

- Package design and testing center ensures packaging is FedEx, UPS or Amazon ready
- Packaging optimized for any network – SFS, freight, ground, air, international
- Specialized sales teams understand the unique challenges of your industry
- Certified packaging engineers collaborate to tackle customers' business challenges and sustainability goals

Technical Service

- Proactively monitor packaging systems and schedule routine maintenance
- Highly skilled, local field technicians available for immediate needs
- 24/7 dedicated technical support hotline

Training Support

- Standard or custom guides, placards and videos
- On-site employee training and educational seminars

We're not just in the packaging business,
WE'RE IN THE "WOW" BUSINESS.

On-Demand Paper Systems

Cushioning System

PACKMASTER™ PRO

Pregis Easypack® Packmaster™ Pro is the most advanced on-demand paper cushioning system available. The Packmaster Pro produces extremely robust paper cushioning that is easily molded and wrapped around any product from delicate items to heavy industrial goods.

- Load and go in under 30 seconds!
- Single or multi-ply paper
- Ergonomic lightweight paper rolls
- FSC-certified recycled paper
- Internal cutting mechanism
- Safety lockouts
- Program 3 pre-set lengths/quantities
- Automatic, semi-automatic or foot pedal operation
- Horizontal or custom configuration

MAXWELL® TECHNOLOGY

Compatible with Packmaster Pro

Maxwell Intelligent Interface empowers users with greater system controls, endless customization options, on-demand training videos and detailed reporting.

Wrapping System

GEOTERRA™

Pregis Easypack® GeoTerra™ curbside recyclable solution provides light cushioning and interleaving protection. Designed for efficiency, the dispenser offers easy tension adjustment allowing for a quick pull, tear, and pack motion.

- Protective cushioning and interleaving solution for fragile products
- Convenient curbside recyclability
- Pattern nests together locking products into place
- Provides 6-sided protection that doesn't require tape
- Dispenser with easy tension adjustment for quick pull, tear and pack motion
- Paper strength instills pack confidence and efficiency
- Lightweight rolls are easily loaded with no set up
- Unboxing that WOWs!

Void Fill System

Pregis Easypack® Quantum™ Series paper void fill systems offer unrivaled simplicity with user friendly controls and the quickest and easiest loading process available. These compact, versatile systems virtually never jam, maximizing uptime. Perfect for packing sharp objects, loose or unboxed items and filling small voids to reduce dimensional weight.

- Intuitive interface simplifies employee training
- Telescoping head for ergonomics and productivity
- Load and go in under 30 seconds!
- Virtually never jams
- Variety of dispensing options including foot pedal
- Ergonomic lightweight paper rolls

QUANTUM™ XTW

- Ideal for mid- to low-volume decentralized packing environments
- Patented bladeless tear-assist allows operator to tear paper effortlessly
- Fanfold is made with FSC® certified paper

QUANTUM™ PRO

- Ideal for high volume centralized packing environments
- Bladeless auto-tear cleanly separates paper with no additional motion or downward force required
- Fanfold is made with FSC® certified paper

GEOPACK™

Pregis Easypack® GeoPack™ Renew™ is a portable, recyclable paper packaging solution. The GeoPack box dispenses Renew paper made from 100% recycled material into ready-to-use pre-crumpled packing paper for void fill and protection.

Pregis Inspyre™ Custom Paper Packaging

Pregis Inspyre™ paper is a void fill solution that allows brands to connect with customers. This custom branded tissue paper is proven to increase perceived product value, brand impression, and brand recall.

Pregis Inspyre packaging is a brand partner of 1% for the Planet, a non-profit that certifies corporate donations to sustainable charities. Through the Inspyre program, a portion of all Inspyre packaging sales go to Uzima, a charity that provides clean drinking water to some of the most vulnerable people.
