

# Pregis EasyPack® Quantum™ XTW

## On Demand Paper System

Pregis Easypack® Quantum™ XTW is the ideal on-demand paper void-fill system for mid-to-low volume operations. Its patented floating head virtually eliminates jams, maximizing uptime, while the bladeless tear feature enhances ease of use and keeps operators safe.

### SUSTAINABLE

- Curbside recyclable solution
- 100% recycled paper
- Fanfold is made with FSC® certified paper

### TELESCOPING HEAD

- Patented bladeless tear assist
- Telescoping head for ergonomics and productivity
- Maximizes workstation customizations

### RELIABILITY AND SIMPLICITY

- Floating head design is virtually jam-free, maximizing uptime
- Simple interface with manual and automatic dispensing options
- Compact, versatile footprint

### PACKER CENTRIC

- No blades or exposed parts keep packers safe from harm
- Magazine holds 5 bundles – 599 ft<sup>3</sup> of packaging without changeover
- Loads in seconds

### PAPER OPTIONS:
