## Flo-Pak® The Clean Bio One

The Clean Bio One Loosefill chip is a versatile chip for void-filling or protecting products in the box. It is made entirely from natural raw materials – air, water and vegetable starch – and, safely biodegrades within a very short space of time.

- Biodegradable
- Compostable
- Reusable
- Superior protection

### Specifications

- Shape: Closed foamed form of an 8
- Color: White/natural without added coloring agents
- Density: 6.0 - 8.0 kg/M<sup>3</sup>
- Material: Starch, water (10%), PVA.  
No flame retardants have been added.
- Solubility in water: 100%
- Auto ignition temperature: 450 degrees Celsius
- Biodegradability: 100%

### Product Codes:

- 400 Liter: 4078872

compostable  
7P1137

9G0238

The Clean Bio One is certified by DIN CERTCO in accordance with EN 13432 making it industrial compostable.

It can be reused or disposed in organic waste bin. The lightweight chip is quick and easy in its use and is suitable for automatic delivery systems.

The Clean Bio chips are made from starch which is 100% GMO-free; it is made exclusively from non-genetically modified raw materials.

# Specifications

## PACKAGING

- 400 liter bags
- Dimensions (LxWxH) 60x60x125cm
- Weight 2.7 kg

The bags are made from PE and are perforated.

## STORAGE

- Temperature: 5-40°C
- Air Humidity: 45-75%

## DISPOSAL

- Organic waste bin
- Wastewater

## ACCIDENT AND FIRE MEASURES

- Extinguishing agent: Water

## TOXICOLOGICAL DATA

- In case of accidental consumption, harmless to people and animals.

## ELECTROSTATIC CHARGE

- Products from starch are naturally not static.

## Characteristics

### Environmental Friendly

- Created from 100% natural raw materials
- Reusable and compostable
- Biodegradable
- Lightweight - 99,6% air
- Clean solution
- DIN CERTCO Certified

### Technical Specifications

- Non toxic
- Groundwater neutral
- Chemically inert
- Can be transported problem free via the existing recycling systems
- 100% GMO-free

- Void-Fill
