

SECTION 1: IDENTIFICATION		

#### **Product identifier**

Trade name: IntelliPack SmartFOAM™ B

Including MLD, FLX,FLX FAST,HD

Synonym(s): IntelliPack foam-in-place packaging component B

Preparation/Revision date: 30 August 2018

Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Protective packaging – Foam component B

Uses advised against: None known

## Details of the supplier of the safety data sheet

Manufacturer / Supplier

Company name: Pregis Innovative Packaging, Inc. Address: 1650 Lake Cook Road, Suite 400

Deerfield, IL 60015

Customer service: 877-692-6163

**Emergency telephone number** For product and additional safety information:

e-Mail: gallen@pregis.com

**24-Hour Emergency Contact:** Chemtrec: (800) 424-9300

#### **SECTION 2: HAZARDS IDENTIFICATION**

## Classification of the substance or mixture

Classification according to the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Classification: Eye Irritation – Category 2

Skin Irritation - Category 2

**Label elements** 

Contains: None

Preparation Date: 26 March 2018 Page 1 of 12

## Section 2: Hazards Identification (cont'd)

Hazard pictogram:

Signal word: WARNING!

Hazard statement: Causes eye irritation

Causes skin irritation

Precautionary statements:

- Prevention: Wear eye protection and protective gloves.

Wash hands thoroughly after handling.

- Response: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses,

if present and easy to do. Continue rinsing. Immediately get medical advice/attention. If on skin: Wash with plenty of soap and water.

If skin irritation occurs: Get medical advice/attention.

Take off contaminated clothing and wash before reuse.

Storage: NoneDisposal: NoneSupplemental label information: None

**Other hazards** Harmful to aquatic life with long lasting effects.

**Hazard summary** 

Physical hazards: Not classified for physical hazards.

Health hazards: May cause serious eye irritation and skin irritation. Environmental hazards: Harmful to aquatic life with long lasting effects.

Main symptoms: May cause serious eye irritation and skin irritation. Vapor from heated material or

mist may cause respiratory irritation.

Preparation Date: 26 March 2018 Page 2 of 12

#### SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	Percent	CAS No.	Notes
Bis(dimethylaminoethyl ether)	1-3%	3033-62-3	_
Ethoxylated Phenol*		Trade Secret	
Tertiary Amines*		Trade Secret	

# - Substance has Occupational Exposure Limits

Specific chemical identities and/or exact concentrations have been withheld as trade secrets.

## **SECTION 4: FIRST AID MEASURES**

**General Information** Show this Safety Data Sheet to the medical professional in attendance. If

symptoms occur, follow first aid measures as appropriate.

**Description of first aid measures** 

Inhalation: Move victim to fresh air, if symptoms persist, obtain medical attention.

Skin contact: Remove contaminated clothing. Wash thoroughly with soap and water.

Wash contaminated clothing before reuse. If irritation develops or

persists, get medical attention.

Eye contact: Rinse immediately with plenty of water for at least 15 minutes. Remove

contact lenses, if present and easy to do. Continue rinsing. If irritation

develops, get medical attention.

Ingestion: Rinse mouth. Never give anything by mouth to an unconscious or

convulsing person. DO NOT induce vomiting. Get medical attention.

Notes to Physician: Treat Symptomatically

Most important symptoms

and effects, both acute and delayed

May cause eye Irritation and skin irritation. Vapor from heated

material or mist may cause respiratory irritation.

Indication of any immediate medical attention and special

treatment needed

None known.

Preparation Date: 26 March 2018 Page 3 of 12

## SECTION 5: FIRE FIGHTING MEASURES

General fire hazards Closed container may forcibly rupture under extreme heat. Use cold

water spray to cool fire exposed containers to minimize the risk of rupture. Large fires can be extinguished with large volumes of water

applied at a safe distance.

**Extinguishing Media** 

Suitable extinguishing media: Water, Foam, Dry Chemical, Carbon Dioxide. Use extinguishing media

appropriate for surrounding material.

Unsuitable extinguishing media: None known

Special hazards arising from the

substance or mixture

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include but are not limited to:

Nitrogen oxides, Carbon Monoxide and Carbon Dioxide.

**Advice for firefighters** 

Special protective equipment for firefighters: Firefighters should use self-contained breathing apparatus and wear full

protective equipment. Personnel / bystanders should be kept upwind of

fire.

Special firefighting procedures: Do not use direct water stream which may spread fire.

Special remarks on fire hazards: None

#### **SECTION 6: ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures

Use personal protective equipment as recommended in Section 8. Keep unprotected persons away. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Floor may be slippery. Wash thoroughly after handling. Floor may be slippery.

Methods and materials for containing

and cleaning up

Contain spilled material if possible. Spilled material may cause a slipping hazard. Absorb with materials such as dirt, sand, or sawdust. Collect in

suitable container. Wash the spill site with water.

Preparation Date: 26 March 2018 Page 4 of 12

#### **SECTION 7: HANDLING AND STORAGE**

## Precautions for safe handling

Use personal protective equipment as recommended in Section 8. Do not eat, drink or smoke when using this product. Avoid contact with skin, eyes and clothing. Avoid inhalation of vapors/mists. Avoid release to the environment. Spills of these organic materials on hot fibrous insulations may lead to lowering of the autoignition temperatures possibly resulting in spontaneous combustion.

# Conditions for safe storage, including any incompatibilities

Store in a dry place, avoid prolonged exposure to heat and air. Store between 60°F and 95°F. Avoid contact with oxidizing materials, strong acids and strong bases. Avoid unintended contact with Isocyanates.

#### **SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION**

## **United States. Occupational Exposure Limits:**

Component	CAS No.	Туре	Value	Form
Bis(dimethylaminoethylether)	3033-62-3	ACGIH TLV TWA	$0.33 \text{ mg/m}^3$	N/A
Ethoxylated Phenol*	Trade secret	None		
Tertiary Amines*	Trade secret	None		

### Appropriate engineering controls

Observe occupational exposure limits. Local exhaust should be used to maintain levels below the exposure limits. Supplemental local exhaust ventilation, closed systems, or respiratory protection may be needed in special circumstances such as poorly ventilated spaces. Eye wash station should be located in immediate work area.

Preparation Date: 26 March 2018 Page 5 of 12

## SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION (CON'T)

Indi	kuhiv	<b>Protective</b>	Measures

Skin protection:

General Information: Avoid skin and eye contact. Avoid inhalation of vapors and mists.

Personal protective equipment should be chosen according to applicable

standards and in consultation with the supplier of the personal

protective equipment. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking

and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

Eye/face protection: Wear safety glasses. Chemical resistant goggles recommended.

Wear protective gloves. Avoid all skin contact. Depending on the

conditions of use, cover as much of the exposed skin area as possible with appropriate chemical resistant clothing to prevent skin contact.

Respiratory protection: When potential exists to exceed exposure limit, an approved air purifying

respirator equipped with an organic vapor cartridge and a HEPA (P100) particulate filter may be used when an appropriate cartridge change-out schedule has been developed in accordance with the OSHA respiratory protection standard. For most conditions, no respiratory protection

should be needed; however if material is heated, sprayed, or causes

irritation, use aforementioned respirator.

Thermal hazards: None known

#### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

# Information on basic physical and chemical properties

Form	Liquid	Explosive properties	No data available
Color	Orange to brown	Explosive limit	No data available
Odor	Mild	Vapor pressure	No data available
Odor threshold	No data available	Vapor density	<1 @25°C
рН	No data available	Evaporation rate	No data available
Melting/freezing point	No data available	Relative density	1.04
Boiling point, initial boiling point and boiling range	No data available	Partition coefficient (n-octanol/water)	No data available
Flash point	ASTM D93(None)	Solubility (water)	Moderately soluble
Auto-ignition temperature	No data available	Decomposition temperature	No data available
Flammability (solid, gas)	Not applicable	Bulk density	No data available
Flammability limit-lower%	Not applicable	Viscosity	784 cST @25°C
Flammability limit-upper%	Not applicable	VOC (weight %)	No data available
Oxidizing properties	Not applicable	Percent volatile	No data available

# SECTION 10: STABILITY AND REACTIVITY

**Reactivity**The product is stable and non-reactive under normal conditions of use,

storage and transport.

**Chemical stability** Product is stable under normal conditions. Product may oxidize at

elevated temperatures.

**Possibility of hazardous reactions**No hazardous reactions if stored and handled as prescribed. Hazardous

polymerization will not occur by itself.

**Conditions to avoid** Avoid contact with oxidizing materials, strong acids, and strong bases.

Avoid unintended contact with amines and isocyanates. Product can

oxidize at elevated temperatures.

**Incompatible materials**Oxidizers, strong acids, strong bases, amines and isocyanates.

Hazardous decompositions products

Decomposition products include but are not limited to: Carbon dioxide,

alcohols, ethers, hydrocarbons, ketones and polymer fragments.

Preparation Date: 26 March 2018 Page 7 of 12

#### SECTION 11: TOXICOLOGICAL INFORMATION

General information on likely routes of exposure

Ingestion: Ingestion may result in gastrointestinal discomfort or distress.

Inhalation: Vapor from heated material or mist may cause respiratory

irritation.

Skin contact: Causes skin irritation.

Eye contact: Cause severe eye irritation.

Symptoms: Exposure may cause serious eye irritation and skin irritation. May cause

respiratory irritation

11.1 Information on toxicological effects

Acute Toxicity: Single dose oral and dermal LD50s has not been determined. Estimated

product dermal and oral LD50 Rat > 2,000 mg/kg.

Serious Eye Damage/Irritation: No data were identified for this product as a whole. Product contains

Tertiary amides, known to cause eye damage and Ethoxylated Phenol

which is known to be irritating to the eyes.

Skin corrosion/Irritation: No data were identified for this product as a whole. Product contains

Tertiary amides, known to cause skin damage, and Ethoxylated Phenol,

which is known to be irritating to the skin.

Respiratory/Skin Sensitization: No data were identified for this product as a whole. Product does not

contain any components known to cause sensitization.

Germ Cell Mutagenicity: No data were identified for this product as a whole. Product does not

contain any components known to cause germ cell mutagenicity.

Carcinogenicity: No data were identified for this product as a whole. Product does not

contain any components known to be carcinogenic by NTP, IARC or

OSHA.

Reproductive Toxicity: No data were identified for this product as a whole. Product does not

contain any components known to cause reproductive effects.

Developmental Effects: No data were identified for this product as a whole. Product does not

contain any components known to cause developmental effects.

Components test have been toxic to the fetus in laboratory animals only

at maternally toxic doses. Minor component(s) did not cause birth

defects or any other fetal effects in laboratory animals.

#### SECTION 11: TOXICOLOGICAL INFORMATION (CONT'D)

STOT – Single Exposure: No data were identified for this product. There is no specific target organ

toxicity to be expected after a single exposure.

IntelliPack SmartFOAM™ B

Preparation Date: 26 March 2018 Page 8 of 12

STOT – Repeated Exposure: No data were identified for this product as a whole. Repeated exposure

not expected to cause substance-related effects.

Aspiration Hazard: No data were identified for this product or its constituents.

**Conclusion/Summary** May cause serious eye irritation and skin irritation.

## **SECTION 12: ECOLOGICAL INFORMATION**

**Ecotoxicity** Harmful to aquatic organisms and may cause long-term adverse effects

in the aquatic environment. The product has not been tested. The statement has been derived from the properties of the individual components. Tertiary Amides is practically non-toxic, fish LC50 > 100 mg/L, but may increase pH of aquatic systems which may be toxic to aquatic organisms. Ethoxylated Phenol is moderately toxic, LC50/EC50 1

- 10 mg/L in fish and invertebrates.

**Persistence and degradability** Ethoxylated Phenol is considered to be readily biodegradable.

Biodegradation of Tertiary amides under aerobic laboratory conditions

was below detectable limits.

**Bioaccumulative potential**No bioconcentration of Ethoxylated Phenol is expected because of the

relatively high water solubility.

#### SECTION 12: ECOLOGICAL INFORMATION (CONT'D)

**Mobility** No data were identified for this product as a whole. Given its very low

Henry's constant, volatilization from natural bodies of water or moist soil

is not expected to be an important fate process for Tertiary amides.

**Results of PBT and vPvB assessment**No data were identified for this product.

Other adverse effects None known

**Conclusion/Summary** Harmful to aquatic life with long lasting effects.

## **SECTION 13: DISPOSAL CONSIDERATIONS**

#### Waste treatment methods

Preparation Date: 26 March 2018 Page 9 of 12

Residual waste: Dispose of in accordance with applicable Federal, State and Local

regulations.

Contaminated packaging: Dispose of in accordance with applicable Federal, State and Local

regulations. Empty containers retain product residue; observe all precautions for product. Do not heat or cut empty container with electric or gas torch. Do not reuse without thorough commercial

cleaning and reconditioning.

Disposal methods/information: Dispose in accordance with applicable Federal, State and Local

regulations. Incinerate or dispose if in a licensed facility.

## **SECTION 14: TRANSPORT INFORMATION**

# Classification in accordance with U.S. DOT, IMDG, and IATA:

**UN Number** Not applicable, not regulated as hazardous for transport.

**UN proper shipping name**Not applicable, not regulated as hazardous for transport.

**Transport hazard class(es)**Not applicable, not regulated as hazardous for transport.

## SECTION 14: TRANSPORT INFORMATION (CONT'D)

**Packing group**Not applicable, not regulated as hazardous for transport.

**Environmental hazards** Not applicable, not regulated as hazardous for transport.

**Special precautions for user**Not applicable, not regulated as hazardous for transport.

Transport in bulk according to

Annex II MARPOL73/78 and the IBC

**Code** Not applicable, not regulated as hazardous for transport.

The transport regulation may vary based on the country of use. Check for the appropriate regulations in the country of transport or usage of this product.

Preparation Date: 26 March 2018 Page 10 of 12

#### Section 15: Regulatory Information

## Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **USA Federal Regulations**

29 CFR 1910.1200 Hazard Communication

Standard (HCS): Hazardous

TSCA - U.S. Inventory: Exempt/Compliant

SARA Title III - Section 302, Extremely

Hazardous Substances (EHS): None Known CERCLA - Hazardous substances: None Known

SARA Title III – 311/312, Hazard Classes:

Fire / Flammability No
Reactivity No
Release of Pressure No
Acute Health Hazard Yes
Chronic Health Hazard No

SARA Title III – Section 313: None Known

**USA State Regulations** 

Massachusetts – Right-to-Know: None
New Jersey – Right-to-Know: None

Pennsylvania – Right-to-Know: 9-Octadecenoic acid CAS: 112-81-0

**Other Regulations** 

All shipping mailer packaging and packaging components, manufactured in the United States by Pregis Innovative Packaging, Inc., comply with the several United States' enacted provisions of the Coalition of Northeast Governors ("CONEG") legislative model for the reduction of toxics in packaging and the California Toxics in Packaging Prevention Act. Pregis Innovative Packaging, Inc.'s manufacturing practices prohibit the intentional introduction of cadmium (Cd), hexavalent chromium (Cr +6), lead (Pb), or mercury (Hg) into its products' formulations. Further, the cumulative total of all such metals' incidental concentrations does not

exceed 100 parts per million (ppm).
