

## PRO PAK'R Multitube

- Multifunctional
- Air transfer technology
- RFID technology

The Multitube is a solution when a variety of applications is required. It allows a high quality protection thanks to the air-transfer technology, which improves shock absorption.

Each air cushion is composed of 8 rectangular shaped pouches which offer a higher flexibility of protection.

The film complies perfectly with the European legislation for packaging and packaging waste: EN13427.

## Machine & Accessories

The **PRO PAK'R** is equipped with the latest technology. It is fast, smart, easy to use and compact. It works with various films.

## Air Cushion Specifications

- Size cushion: WxL = 400x127 mm
- Thickness: 19 micron
- Material: LDPE
- Rather clear and transparent, green print
- 100% recyclable
- Product code: 4079235

## Specifications

### ROLLS

- Roll length: 665 metre
- Roll weight: 9 kg
- Volume per roll: 6 m<sup>3</sup>

### PALLET

- Rolls per pallet: 54
- Number of layers: 3
- Rolls per layer: 18
- Pallet weight: 540 kg
- Pallet dimensions: LxWxH in cm= 120x80x135

## Characteristics

### Environmental Friendly

- 100% Recyclable
- Suitable for energy recovery
- Very light, 99% air
- Complies with EN13427 standard for packaging and packaging waste
- Printing is made from water-based ink

### Technical Specifications

- Non toxic
- Groundwater neutral
- Chemically inert
- Dust-free
- Wear-resistant
- Can be transported problem free via the existing recycling systems for PE
- Water repellent

### Storage Conditions

- Store covered in a clean dry room
- Average storage condition should be 20°C (max. 30°C)
- During winter we recommend to store the rolls on site at room temperature at least 24 hours before use
- Keep the rolls out of direct sunlight
- Rolls must be kept at least 2m from any heat source
