

Pregis EasyPack® GeoTerra®

Interleaving and light
cushioning solution

Pregis EasyPack® GeoTerra® paper-based packaging is designed for light cushioning and interleaving protection. It is ideal for brands seeking to safeguard products with a curbside recyclable solution. Choose between manual or automatic dispensers to meet your packaging needs, from ship-from-store to high-volume operations. Elevate your unboxing experience with GeoTerra.

BENEFITS

Product Protection

- Dispense GeoTerra to activate the interlocking pattern for light cushioning
- Nests together securely locking products in place without tape

Sustainability

- Curbside-recyclable, paper-based wrapping solution

Packer-Centric Design

- Lightweight rolls are quick and easy to load
- Compact design and flexible configurations maximize workstation space

Customer Experience

- Unboxing that Wows!

AUTO DISPENSER

- Boosts productivity with rapid wrapping capabilities
- Auto-expanding interlocking pattern ensures consistent tension for uniform protection
- Adjustable speed and foot pedal enable seamless operation

MANUAL DISPENSER

- Easy tension adjustment for quick pull, tear, and pack motion
