

# Bubble Cushioning & Bags

Lightweight, transparent and versatile

# Bubble

Pregis offers a full line of strong, flexible and lightweight air cushioning products to meet all your protective packaging needs.

## Applications:

Cushioning | Wrapping | Surface protection | Interleaving | Void fill

## Advantages of Bubble:

- Lightweight, clean and flexible
- Easy to use plus everyone loves bubble!
- Keeps products of all shapes and sizes securely in place
- Cushioning qualities protect items from shock, vibration and abrasion
- Transparent to provide easy product identification
- Multi-purpose material available in a variety of sizes, performance range and customizations to meet the toughest industrial need to the DIY'er

## Performance Range: Available in light, medium and heavy duty

### Heavy Duty

Fragile or heavy products that have extended storage and shipping cycles.

### Medium Duty

Industrial strength bubble for intermediate storage cycles. (less than 30 days)

### Light Duty

Economical protection for lighter weight products with short shipping & storage cycles.

## Options

### Astro-Bubble Green™

- Made with 25% post-industrial recycled content
- Light green color
- Environmentally-sensible

### Anti-Static Bubble

- Static dissipative properties. Perfect for electronics
- Light pink color

### Convenient Dispenser Pack

---

## EZ Bubble-Out® Bags-on-a-Roll

Dispense air cushioned bags at point of use

---

## Converted & Laminated Bubble

**Adhesive:** Sticks directly to the product. Peels off easily without leaving a residue

**Cohesive:** Sticks to itself, not the product. Leaves no residue behind. Also available in a convenient dispenser carton, with/out perforations.

**Third Web:** bubble with a layer of film laminated to provide extra protection against tears and punctures. Available in rolls or over-size bags.

**Other substrates:** kraft paper, polyethylene films or foil

---

## Penguin Pack temperature controlled packaging

- Reflective properties act as a barrier to heat. Provides high level of light, solar radiation and UV protection
- Maintains desired temperature to support shelf-life goals and minimize the need for costly rush delivery methods
- Provides cushioning properties to prevent damage or movement during shipment
- Reduces freight cost and minimizes storage space
- Flexible material conforms around contents, reducing the surface area of the package
- Made from FDA compliant materials for indirect food contact

Penguin Pack's bubble cushioning material contains post-industrial material to reduce raw material consumption. Penguin Pack is available in a wide range of custom and standard sizes including 3D box liners, gusseted pouches, flat pack pouches and several roll sizes to accommodate your specific size requirement.
