AirSpeed® Double Cushion Renew™ PCR

Elevate your sustainable packaging with Pregis AirSpeed® Double Cushion Renew™ PCR, featuring an impressive **80% post-consumer recycled (PCR)** content.

- **Protect the planet:** Reduce carbon emissions by over **40%**, fossil fuel usage by **65%** and water usage by **70%***
- **Close recycling loop:** PCR content keeps materials in use that have completed their lifecycle, extending the life of plastics
- **Store Drop-Off Recyclable:** Designated with a How2Recycle® Store Drop-off label

*Compared to virgin resin cushioning in a lifecycle analysis.
