

Centerfold Furniture Bags

Pregis centerfold laminations form a large bag to offer customers a cost effective, strong, resilient cushioning alternative that provides superior protection for any type of packaging, moving, or storing opportunity.

FURNITURE GUARD PLUS® BAGS

We combine our Furniture Guard® polyethylene foam with film to create Furniture Guard Plus®, a virtually tear-proof product that addresses the needs of applications from shrink-wrap to stand-alone systems. In addition to offering outstanding protection, Pregis Furniture Guard and Furniture Guard Plus are lightweight and recyclable, helping to lessen the environmental impact.

- Superior corner, edge and surface protection to resist scratching, marring and abrasion
- Availability of PE film inner liner makes bag easy to load
- Optional 4-6 inch viewing strip provides easy product identification
- Waterproof for extra protection
- Easily heat-sealed for superior seam strength and a variety of uses
- Flexibility, efficiency and availability reduces material and labor costs
- Available in perforated bags on a roll or pre-made bag bundles, in widths 36" to 59" centerfolded and thicknesses 1/16" to 1/8"

PRODUCT	PACK	PRODUCT DESCRIPTION	ROLL LENGTH	STANDARD PUT -UP	TL'S
FG100	SP	FGH / 1 mil cast	400'	53" CF	102

ASTRO-CELL® 3RD WEB AIR CUSHIONING

Pregis 3rd web bubble offers customers another strong, cost effective packaging alternative for any type of packaging need. The 3rd web alternative allows Pregis to provide an extra layer of material strength on the outside of the bubble for an economical protective packaging solution. This offers customers an excellent surface protection and superior resistance to tears and punctures while providing increased visibility.

- Superior puncture resistance, greater elongation and tensile strength
- Bag transparency promotes easy product identification, reduces printing
- Can be sealed easily with heat sealing equipment for bagging opportunities Variety of uses and superior seam strength
- Available in 3 thicknesses from 1/8" to 5/16"
- Flexibility, efficiency and availability reduces material and labor costs
- PE film inner liner option makes bag easy to load
