Our Pregis Mailing & Bagging solutions are supported by our trusted team of engineers and service technicians who would be happy to help you identify the right film type for your product, integrate your new bagging equipment into your warehouse footprint or support you in fully automating your processes.

Ready-to-Pack Shipping Mailers

EverTec Cushioned Mailer

The Pregis EverTec Cushioned Mailer is the curbside recyclable, cost-saving answer to small box replacement, ideal for shipping less-fragile items. Its evergreen construction and everlasting durability ensure protection and damage reduction while right-sizing shipments.

- Reinforced side seams
- 4-Color digital print
- Resilient cushioning support
- How2Recycle certified as curbside recyclable

Ideal for: Less fragile goods, such as books and cosmetics

EverTec Non-Cushioned Mailer

The Pregis EverTec Non-Cushioned Mailer is the sustainable replacement for manually-packed poly mailers, ideal for shipping non-fragile items. Its lightweight, 2-ply paper construction provides a durability that stands up to operational stressors while driving packer throughput.

- Reinforced side seams
- 1-Color flexographic custom print
- How2Recycle certified as curbside recyclable

Ideal for: Soft goods and non-fragile goods, such as linens and apparel

Automated Mailers

EverTec Automated Mailer

The EverTec Automated Mailer brings the power of paper to the world of automated fulfillment. This curbside recyclable mailer is constructed from specialty kraft paper to ensure maximum durability during transit.

- How2Recycle certified as curbside recyclable
- Heat-activated adhesive
- Single-ply kraft paper construction
- 1-Color flexographic custom print
- Compatible with Pregis Sharp™ MaxPro series

Ideal for: Soft goods and non-fragile items

Pregis Poly Mailers

Pregis Poly Mailers are where reliable durability meets cost-conscious mailing. These customizable mailers contain at least 30% recycled content and are available with a host of special features and film types.

- 4 stock sizes available with lead times as low as 1 day
- Contains at least 30% recycled content, available up to 50% recycled content
- Compatible with Pregis Sharp™ portfolio of automated bagging equipment

Ideal for: Soft goods and non-fragile items

Pregis Sharp Automated Equipment

SX Tabletop Bagging System

The Pregis Sharp SX has a small footprint but packs a big punch! Capable of running bags up to 11" wide, this bagger is ideal for inbound inventory kit packing or control, or outgoing shipments.

- All electric design for immediate set up, no factory air needed
- 4" wide print head
- Prints labels directly on bags

Max Series Automated Bagging Equipment

Pregis Sharp Max series bagging systems can run bags up to 12" wide and are ideal for high-volume bagging, including pharmaceuticals, small parts, injection molding and fulfillment applications.

- Mechanical bag open assembly ensures consistent opening for both manual and automated applications
- Zebra printers enable seamless integration with warehouse systems
- HMI, printer and PLC can be networked, allowing for optional remote support and diagnostics
- Off-the-shelf, nonproprietary parts means reduced lead times when a replacement part is needed

Pregis Printer Ribbon

Ask about our Pregis thermal imprint ribbon, specially designed to run on the integrated Zebra printers on our Pregis Sharp automated bagging equipment.

Pregis Sharp Automated Equipment

MaxPro Series Automated Bagging Equipment

Pregis Sharp MaxPro Systems take it to the next level. Perfect for high-volume ecommerce applications, MaxPro bagging machines are safe, user-friendly, and efficient. These technologically advanced machines ensure more uptime and the ability to automate with robotic integrations fully.

- Inline thermal imprinting and optional label side up exit conveyance expedites package scanning
- HMI-controlled passthrough adjustments allow for faster job changeovers
- Easy-to-use and easy-to-train HMI screen allows for intuitive operation
- Inherently safe design, including low forces on all machine motion, keeps packers safe
- Predictive maintenance allows you to schedule preventative maintenance on your schedule
- HMI, printer, and PLC can be networked for easy integration and remote diagnostics
- Material neutral capabilities allow you to choose which Pregis mailers you would like to run – poly or paper!

MaxPro 18

- Compatible with mailers up to 18" wide

MaxPro 24

- Compatible with mailers up to 24" wide

Products worth protecting deserve Pregis

We are a leading manufacturer of **innovative packaging solutions** and **protective products**.

We solve our customer's toughest business challenges with packaging so they can create customers for life. We do this by delivering **creative solutions to packaging challenges** and leveraging a material neutral portfolio.
