

Pregis

EasyPack® Strata

On-Demand Paper System

Pregis EasyPack® Strata is a compact, high-speed system that produces structured paper pads for enhanced void fill and light cushioning applications, with the capability to support full cushioning. With speeds up to 60 inches per second, Strata boosts productivity while meeting curbside recyclability expectations.

SCALABLE PROTECTION

- Delivers enhanced void fill, light cushioning and cushioning protection
- Tailor protection by selecting basis weight and single or multi-ply paper
- Fits seamlessly into workstations and centralized lines

OPERATIONAL EFFICIENCY

- Dispenses up to 60 inches per second for high throughput
- Offers flexibility of auto and manual modes
- Structured pads fill space efficiently, reducing material use

SUSTAINABLE SOLUTION

- Paper made from 100% recycled content
- Options include Forest Stewardship Council® (FSC)-certified paper
- Support curbside recyclable sustainability commitments
