Benefits

- **Versatile:** This on-demand paper solution can protect all kinds of goods, from lightweight to heavy.
- **Best protection:** The solution offers advanced efficiency and exceptional yield, providing high pack quality and strength for total in-the-box protection.
- **Efficient:** Thanks to the high speed blade technology, the cycle time is cut by half and offers an increase of up to 35% more packs per minute.
- **Ease of use:** Simple controls and easy to load in just a few seconds.
- **Flexible:** The **Packmaster™ Pro Fanfold** can convert multiple grades of 1-ply or 2-ply paper.
- **Eco-friendly:** The system allows users to convert 100% recycled, recyclable and biodegradable paper up to 80 times its original volume.

Packmaster Pro in combination with Coiler Lite: Ref: 9093381 & 9093382

The coiler lite is a bolt on solution designed to be used in conjunction with the **Packmaster™ Pro Fanfold** system to automate the process of producing consistent, large quantities of highly protective paper rolls. The combination of this system with our 1-PLY and even 2-PLY continuous fanfold saves about 15 roll changes per pallet!

Applications

- Coiling

- Interleaving

- Block & Brace

- Void-fill

- Cross Brace
