

Inspyre customers, create brand loyalty.

AirSpeed®

AirSpeed® HC Inspyre offers brand owners the power to create an unforgettable connection with their customers during the unboxing experience. HC Inspyre is stocked in blue, black and pink colors, with custom colors available* to allow companies to cultivate the look and feel of their packaging to reflect their brand and deliver a "wow factor" to customers.

With fewer chances to physically connect with consumers, it's imperative for brands to capitalize on opportunities to make a lasting impression – let the unboxing experience be your brand's statement on how you care for your customers. Inspyre your customers to share and recommend your products!

AirSpeed® HC

On-demand high performance cushioning.

Features:

- Curate the ultimate unboxing experience
- Packaging that represents your brand*
- Clean, aesthetic packaging preferred by consumers
- Recyclable at local drop off locations – how2recycle.info

*Custom colors require minimum order quantities, ask your Pregis account manager for more information

You worked hard to create and cultivate your brand, let our packaging deliver it to your customers.

Let us help you inspire brand loyalty.
