

Pregis

Easypack® Coiler Lite

Accessories

Paper coils are an invaluable way of protecting fragile and heavy products alike. However, creating coils by hand can be difficult, time consuming and deliver inconsistent results. The Pregis Easypack® Coiler Lite rapidly produces consistent coils with ease. Its small footprint minimizes the impact on your working environment and your team is protected with its safety features.

BENEFITS

CONSISTENT QUALITY

- Used with the Pregis Easypack® Packmaster™ Pro and built to the same robust quality and reliability standards
- Unique control system automatically adjusts speed resulting in a uniform level of protection from a uniformly formed coil

SPACE SAVING

- The best access and smallest footprint in its class
- Easily fits into existing work environment

PACKER CENTRIC

- Internal sensors protect operators from harm
- Simple, intuitive interface
- Minimal training required so team can concentrate on packing!
