

Pregis PolyMask™ Temporary Protective Film

Improve your environmental impact with High Performance Film.

Original Roll Thickness (mil):

Proposed Roll Thickness (mil):

Roll Length (ft):

Roll Width (in):

Annual Roll Usage:

Greenhouse Gas Emissions Reduced* (kg CO₂):

*When comparing proposed gauge film to original @ same roll length and width

The sum of the greenhouse gas emissions avoided from implementing this thinner film solution is equivalent to:

Carbon Dioxide Emissions from:

Homes' energy use for one year

Greenhouse Gas Emissions from:

Passenger vehicles driven for one year

Carbon Dioxide Emissions from:

Barrels of oil consumed

PREGIS POLYMASK HIGH PERFORMANCE FILM PLATFORM

- Superior construction and improved performance in a thinner film
- Improved stretch, malleability, puncture and mar resistance, with easy unwind and lower COF
- Versatile and customizable film formulations can be combined with any Pregis adhesive system
- Sustainability improvements including material, waste and carbon reduction
