Automated Mailing and Bagging

On-Demand Rightsizing

Pregis EverTec® Mailers. Built to Deliver.

Ready-to-Pack Mailers

The EverTec mailer portfolio provides curbside recyclability, exceptional durability and an enhanced customer experience in order to meet the demands of modern fulfillment operations.

EverTec Cushioned Mailer

Built to Deliver Padded Protection.

- Curbside recyclable, double-walled kraft paper construction with proprietary cushioning
- 5 available sizes with stock and custom print options
- Bears Sustainable Forestry® (SFI) 'Certified Sourcing' designation denoting responsible paper origins
- Designated 'Widely Recyclable' where recycling systems exist

Ideal for:

- Semi- to less fragile products
- Beauty, wellness, home goods

EverTec Non-Cushioned Mailer

Built to Deliver Reliable Durability.

- Curbside recyclable, double-walled kraft paper construction with reinforced sealing
- 5 available sizes with stock and custom print options
- Bears Sustainable Forestry® (SFI) 'Certified Sourcing' designation denoting responsible paper origins

Ideal for:

- Non-fragile pre-packaged products
- Soft goods, such as apparel, linens, pre-packaged goods

Ready-to-Pack Mailers

EverTec Non-Cushioned Mailer with Bottom Gusset

Built to Deliver Pack Station Flexibility.

- Designed for operations with multi-product fulfillment
- Curbside recyclable kraft paper construction with bottom-side expanding gusset
- 6 available sizes with stock and custom print options

Ideal for:

- Bulkier, multi-SKU packing orders
- Non-fragile items such as pre-packaged supplies, soft goods, beauty & wellness, pet supplies

EverTec Wicket-Ready Non-Cushioned Mailer

Built to Deliver Packing Speed.

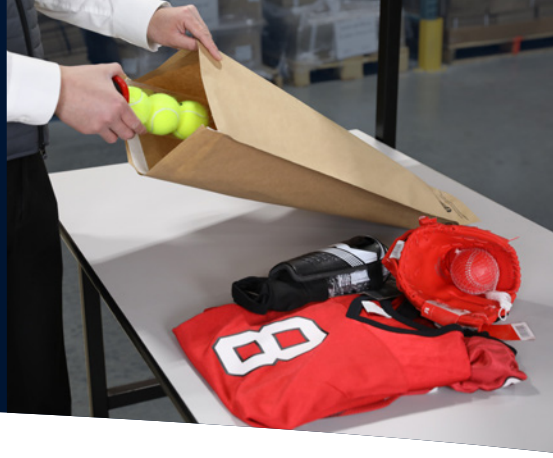

- Designed for high-volume stations, with quick-pull packing
- Curbside recyclable kraft paper construction
- Bundles of 35 with 4" spacing between holes
- Bears Sustainable Forestry® (SFI) 'Certified Sourcing' designation denoting responsible paper origins

Ideal for:

- High-volume pack stations
- Non-fragile items such as pre-packaged supplies, soft goods, beauty & wellness, pet supplies

Pregis Sharp® Systems. Engineered for Efficiency.

Automated Mailing & Bagging Systems

Pregis Sharp® automated bagging systems deliver up to 4x the output of manual packing, helping operations increase productivity while lowering total operating costs. Designed for high-volume fulfillment environments, Sharp baggers are engineered for efficiency, delivering ROI in nine months or less on average.

Sharp SX

Engineered for Entry to Automation.

The SX offers a simple, scalable path to automated packing, delivering reliable performance in a compact, all-electric design. This tabletop system is designed for portable, plug & play operation.

- All-electric, mobile small footprint design
- Simple set up, user-friendly operation for quick packer adoption
- 11” max bag width compatibility

Ideal for:

- Inbound ecommerce inventory bagging
- Small product outbound fulfillment
- Small parts barcoded bagging, retail bagging

Sharp Max Series

Engineered for Complex Bagging.

- High-speed bagging reaching 12+ bags/minute, application dependent
- Designed to integrate into complex bagging workflows
- Built-in Zebra printer and WMS connectivity
- 12" and 20" max bag width models

Ideal for:

- Pharmaceutical, injection molding, medical accessories, industrial bagging
- Ecommerce mailing and bagging

Automated Mailing & Bagging Systems

Sharp Lynx 18

Engineered for Agility.

The Lynx 18 provides maximum fulfillment output without constraints. Designed with a compact footprint and all-electric power, this system brings the possibility of high-volume, full-size mailer fulfillment to spaces traditional bagging could not support.

- All-electric, cart-top compact design
- Paper and poly material compatibility
- 18” full size mailer compatibility
- Left or right exit conveyance available

Ideal for:

- Unique or space constrained layouts
- Ship from store operations, evolving 3PL workflows

Sharp MaxPro Series

Engineered for Simple Operation.

Purpose-built for high-volume ecommerce fulfillment handling larger or bulkier items, the MaxPro series delivers material neutral bagging in an operator-friendly build to deliver maximum throughput.

- Inherently safe operation with toolless job changeovers
- Paper and poly material compatibility
- 18” and 24” max mailer width models
- Front and rear conveyance available

Ideal for:

- Large or bulkier products such as large apparel, boot boxes, home goods

Pregis Poly Lite®. Designed for Run-Ready Performance.

Pre-Opened Automated Mailers

Pregis offers a broad portfolio of automated consumables in a variety of materials and gauges to support diverse fulfillment requirements. Available with custom sizing, printing and specialized features, these high-quality solutions are designed to help operations achieve the right balance of performance, efficiency and brand impact.

Poly Lite® Mailer

Run-Ready Fulfillment Performance.

Poly Lite® Mailers are manufactured in-house to be paired with Sharp systems. Available across multiple gauges, stock and custom sizes and a range of special features, Poly Lite mailers provide run-ready performance tailored to the demands of ecommerce fulfillment needs.

- Minimum of 30% post-industrial recycled content
- How2Recycle® store drop-off recyclable designation
- Stock and custom sizing available
- 8-color custom branding

EverTec Automated Mailer

Built to Deliver Automated Sustainability.

The Pregis EverTec® Automated Mailer is built to deliver curbside recyclability and operational excellence. Designed to run seamlessly on the Sharp MaxPro and Lynx systems, the EverTec Automated Mailer brings a new sustainable option to high-efficiency fulfillment.

- Kraft paper construction with curbside recyclability designation where recycling systems exist
- Heat-activated sealing
- 1-color custom branding
- Designed for use with Sharp ecommerce baggers

Poly Lite PCR Inspyre Mailer

Run-ready impact.

Choosing stock **Pregis Poly Lite® PCR Inspyre™ mailers** ensures an elevated customer experience and makes a meaningful global impact. As part of 1% for the Planet®, 1% of Inspyre sales support the Uzima Clean Water Mission.

- Contains 60% Post-Consumer recycled content
- Compatible with full suite of Pregis Sharp® automated bagging systems

Pregis Bagger Thermal Transfer Ribbon

Pregis thermal transfer ribbons are engineered to work seamlessly with Pregis bagging systems, helping maximize print quality, reliability and uptime.

Automated Mailing & Bagging Accessories

Pregis helps you maximize the return on your automation investment by supporting bagging integrations with proven modular automation systems that work alongside our baggers to expand overall line capabilities.

Bowl Feeders

Designed for precision parts counting, Sharp bagging systems can be paired with bowl feeder systems for automated part presentation.

- Automatically feeds product for faster, more consistent packaging
- Patented dual-scanner technology delivers best-in-class accuracy

Ideal for:

- Automated precision for small parts counting

EZ Feed Conveyor

EZ Feed conveyors provide a practical product handling solution for operations that require flexibility without the complexity of fully automated feeding systems.

- Configurable for unique workflows and packaging requirements
- Manual counting and loading support precise, consistent package counts

Ideal for:

- Packaging multiple components in a single bag

Weigh Scales

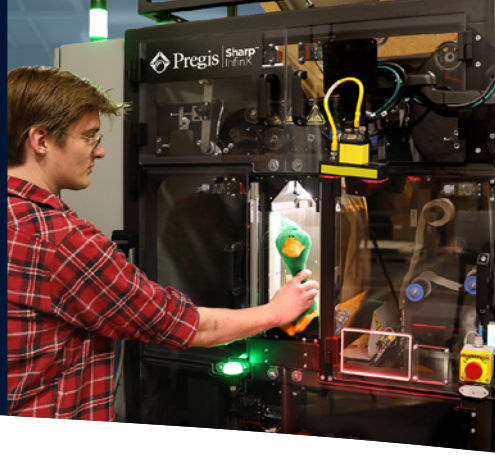

Weigh scale infeeding automates product dispensing to improve packaging efficiency while delivering accurate, repeatable fills.

- Provides consistent weight-based dispensing for accurate bag fills
- Streamlines bulk packaging without adding additional manual quality checks

Ideal for:

- Bulk and variable-weight packaging applications
- Products sold or used by weight

On-Demand Rightsized Mailing

Pregis Sharp® InfinX delivers flexible fulfillment with on-demand rightsized mailing that creates the perfect sized mailer every time. Engineered to fit into your unique operational workflow, InfinX amplifies output while reducing total cost of operational ownership.

Sharp InfinX Rightsized System

Engineered for the perfect sized mailer.

- Scans products, forms a rightsized mailer, seals and labels
- Compatible with Pregis paper, poly and bubble materials
- Ergonomic, easy-to-use operation for shift-long packing
- Compact footprint allows for integration into existing or new workflows

Ideal for:

- Manual or Semi-automated fulfillment workflows with need for sustainable flexibility and lower cost per pack

Material Savings

Freight Savings

Labor Savings

Rightsized Mailing Materials

Designed with the same high-quality and sustainable attributes Pregis EverTec® and Poly Lite® mailer products are known for, Pregis Automated Ready Rolls allow you to create rightsized mailers tailored to your unique mix of products. Compatible with standard variable-length mailing equipment and the Pregis Sharp® InfinX, these materials will streamline your operations and reduce labor strain while reducing your overall operating costs.

Poly Lite Non-Cushioned Automated Ready Roll

Run-Ready Durability.

- Store drop-off recyclable, white-gray film with high-puncture resistance
- A variety of roll widths available
- Custom print available

Poly Lite Cushioned Automated Ready Roll

Run-Ready Protection.

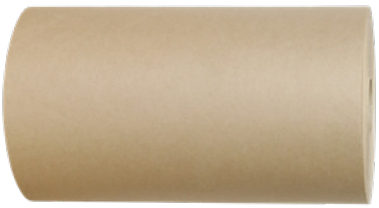

- Low-gloss, white-capped bubble film
- High-puncture resistance and precision sealing
- A variety of roll sizes, cushioning levels and bubble cell heights available
- Custom print available

EverTec Non-Cushioned Automated Ready Roll

Built to Deliver Recyclability.

- Curbside recyclable, heat-sealable coated kraft paper construction
- A variety of roll widths available
- Custom print available
