

# Pregis IntelliPack® SmartBagger™

## Foam-In-Place System

Ensure superior product protection with the Pregis IntelliPack® SmartBagger™. Ideal for high-volume, medium-to-large applications requiring cushioning or block and bracing, this foam-in-place system offers customizable features for enhanced packaging control and efficiency.

### Cellular Telemetry

- Remotely monitor and adjust system performance
- Preventative maintenance minimizes downtime
- Track consumption and performance metrics

### Bar-Coding

- Pre-program specs ensure consistent protection
- Precise dispensing reduces waste and maximizes productivity

### User Friendly, Ergonomic Design

- Open design makes film loading quick, simple and safe
- Long-lasting mixing module
- Intuitive control panel
- Easy-to-replace sealing wires and edge seal arbors

### Accessories

- SmartTrax produces foam filled cylinders of various sizes
- Prefabricated molds and custom built mold tables

### Advantage Program

- No upfront capital investment
- Package design, installation, training and ongoing support

SmartFoam liquids in clear containers for easy consumption monitoring

Pregis IntelliPack® Foam-in-Place Inspyre™ film does more than protect products—it empowers brands to make a meaningful impact. As part of 1% for the Planet, every purchase supports the Uzima Clean Water Mission, bringing life-saving clean water to communities in need.

Products worth protecting deserve Pregis
