

Castelli Marble

Crema

Limestone tiles can bring classic charm to any space without drawing too much attention away from the rest of your design. Crema does just that: this classic print tile is light beige in color with minimal tan hues and quartz veining moving throughout the stone. Each tile has its own unique pattern and comes completed with a honed finish.

The limestone offers the possibility for custom sizes, finishes, and fabrication. Stocked in a honed finish.

Installation & Maintenance Guidelines

- Work with a professional natural stone installer. Consult setting material manufacturers such as Bostick, Mapei & Laticrete on suitability of products.
- Industry standard suggest ordering at least 15% overage due to breakage, tile cuts, and future repairs.
- Veins, natural voids, fissures, variations in color, shade, texture & size are normal in natural stone.
- It is recommended to dry lay all tiles prior to install to achieve the color and pattern desired.
- Sealing natural stone is recommended before and after grouting, for an easier clean up.
- Sealing your tile regularly helps prevent staining.
- Industry standard deems installation as acceptance of material.
